Customer Reviews

The Tom Harrison maps each cover a lot of area and are perfect for planning your backcountry trips. Because of the large areas they cover the detail isn't very close-up so definitely not good for backcountry route finding if doing anything above class 1. If needing a map to navigate by when going cross country then get a USGS map which won't cover as much area but has much better detail. They do work well in conjunction with my gps if I stay on trail though which reduces the # of maps I have to take with me and less is always a good thing when it comes to my backpack weight. They are also waterproof which is pretty much a necessity in my opinion. Very happy with this purchase for what I use it for...trip planning.

Nice map on sturdy 'plastic feeling' paper.

This map is EXCELLENT!!! It is exactly what I need for my backpack trip in the Desolation Wilderness!! And it's super light and cannot tear and is also waterproof!!! Thank you so much!!!

Very detailed and easy to use.

Great map showing elevation changes and mileage on the trails. Was very useful in hiking through El Dorado Natl Forest entry into Desolation wilderness

This map was the best I could find and worked great for getting me thru my trip May 2015 from lily lake to lake aloha and finish at lower echo lake.

Finally a map so I know where I'm hiking. Wish it was 2 sided. Waste of space back there.

Great map. Must have for an trip to Desolation Wilderness.
