The Lost Journal Of Indiana Jones

Synopsis

URGENT! JUST RELEASED: THE LOST JOURNAL OF INDIANA JONES; The Federal Security Service of the Russian Federation is pleased to release one of its most prized holdings, the heretofore "lost" journal of Dr. Henry "Indiana" Jones, Jr., which was obscured within the KGB's collection for years before passing into the Russian Federation's possession. From Jones's notes on his youthful encounters with the likes of Lawrence of Arabia and Teddy Roosevelt, through his adulthood adventures with the Thuggee Cult, the Nazis, and the Kingdom of the Crystal Skull, this journal covers nearly fifty years in his life, spanning from 1908 to 1957. Dr. Jones's snapshots, sketches, press clippings, and entries recording his personal thoughts are all revealed in this volume, giving new insight into one of the most enigmatic adventurers of the twentieth century.

Customer Reviews

Dr Henry 'Indiana' Jones, Jr is an archaeologist who speaks twenty-seven languages and obtained his advanced degree in archaeology from the University of Chicago. He divides his time between classroom instruction at an Ivy League University and fieldwork involving the collection of rare antiquities. --This text refers to an out of print or unavailable edition of this title.

It's a great book with all of the indiana jones movies including the crystal skull. It has wonderful images that was in the movies and some that I don't think were in the movies. it includes a photo of indies dead mother, entries made by shortround, and detaled illustrations and descriptions of all of

the settings and artifacts in full color. they even explain why the cover and the pages don't look original. It really is a fantastic purchase, 100% worth the oney.

What an inventive product - a "journal" exploring the many adventures of Indiana Jones ranging from childhood ("Young Indiana Jones Chronicles") through the movies (ending with the recent "Kingdom of the Crystal Skull"). The journal was written by Indiana himself, containing many pictures, drawings, and notes on his exploits. (It is reminiscent of Henry Sr.'s Grail Diary in "The Last Crusade.") It goes chronologically through the series and was apparently "found" by the Russians. They provide many annotations, linking and explaining the details of certain entries, pictures, characters, and notes. This is a GREAT companion piece to the films. It is a little pricey for its contents, so I recommend looking around for cheaper price tags before purchasing it. If you can't find it cheaper, GET IT ANYWAY!! actually found my copy on . It came at the sales price of \$5 because it contained a publisher's mark - which was only a black marker line above the pages on the top of the book. A minor detail, because the book was still new and was \$20 off the original price of \$25. If you want to collect essential Indiana Jones memorabilia, then this is a must. If you are a passing fan, then it is still recommended because it has countless details for the average fan.

I'm a die hard Indy fan, so of course I loved it.

My little guy had an Indiana Jones adventure party for his birthday. He is the kind of kid that brings his Indiana Jones satchel, full of skull heads, a whip, and compass, if we go out to eat, so this was the perfect party theme. I surprised him with this journal as one of his presents prior to the party. He is too young to enjoy all of the book at this point, but he was so impressed with the idea that this is the real journal, and all the children at the party thought that this was really cool. I think it will be a neat book for him to grow into, and he will still treasure this as an adult.

This is a great book, if you're a fan. It's especially fun to read when you're watching the movie. Have kids? They'll LOVE this! It's a fantastic, fun 'in world' companion to the film. I do wish it had a bit more information, or delved deeper in. I'd have really liked to have taken some of the information to a new level - additional background on things that weren't in the movie, or some secret character development - but that 'wish list' doesn't detract from the fun! The book is well made, the cover is lovely, and the content great

My son lives and breathes Indiana Jones...as such, when I saw this on , I knew right away who had to have it. I purchased it in anticipation of Christmas coming on quick, but after a very long day of helping out his dad with firewood, I decided it was a great reward. HE IS OVER THE MOON WITH IT.. it is filled with all kinds of info about Indy's adventures..photos, info, facts, everything an Indiana fan would love. He has been an I. Jones fan since he was about 4 yrs. old, he is now 9 and is still enamored with the whole series. I guess he will be a life long fan, and any fan that devoted, should have this journal. :)

If you are a fan of Indiana Jones, you need to own this book, it's as simple as that. Chock full of neat little nods to the films, it is written as if it is actually a journal that Indiana Jones kept on his adventures.

I loved this book so much I bought a second copy for my son. It lets you enter the world of Henry Jones Jr from when he was a young lad through the three films with a generous portion of new material in between. I am a stickler for detail, and the detail is there. There are passports, photos, tickets, newspaper clippings, and other things collected by Indiana Jones as he traveled around the world. Every Indiana Jones fan should have this book!
