

Synopsis

The content of this book is the letter, official Top Secret U.S. Army Air Force interview transcripts and personal notes I received from the late Matilda O'Donnell MacElroy. Her letter to me asserts that this material is based on a series of interviews she conducted with an extraterrestrial being as part of her official duty as a nurse in the U.S. Army Air Force. The extraterrestrial she interviewed identified itself as an officer, pilot and engineer of The Domain Expeditionary Force, a race of beings who have been using the asteroid belt in our solar system as a intergalactic base of operations for the past 10,000 years. Her dying request was that the transcripts finally be released to the world. In a letter received with the transcripts, Mrs. MacElroy says: "Mankind needs to know the answers to questions which are contained in these documents: Who are we? Where did we come from? What is our purpose on Earth? If there is intelligent life elsewhere in the universe why have they not contacted us? It is vital that people understand the devastating consequences to our physical and spiritual survival if we fail to take effective action to undo the long-standing and pervasive effects of alien intervention on Earth."

THE OZ FACTORS, by Lawrence R. Spencer: A must read for all citizens of Earth! --Shirely Cage
THE OZ FACTORS, by Lawrence R. Spencer: Our humanity has long since been exceeded by the power of the wicked witches of science and government to destroy all life with nuclear weapons, alter our DNA and control our minds with psychotropic drugs and our lives with media lies. Our thoughts and conjectures about life and the universe are often based on assumptions,

unproven theories, hearsay, rumors and misinformation. Decisions we make in life may be based on ancient attitudes and archaic practices. There are 12 common denominators that prevent observation, understanding, and workable solutions to problems of existence. How do each of these "Oz Factors" influence our history, science, philosophy, our lives and our future? We can chose our own Yellow Brick Road. We can pull back the curtain of rhetoric and dogma. We can build a better Emerald City for ourselves and our children. Do you really want to go back to Kansas? --The Editor

PAN - GOD OF THE WOODS by Lawrence R. Spencer: Pan, the Greek god of forests, shepherds and fertility, has long represented the pagan gods in general. With the advent of the Christian church communication with the pagan gods was very heavily suppressed by priests who have a vested interest in eliminating religious competition, by any means required, including, but not limited to lying, stealing, cheating, murder, mayhem, extortion, torture and blackmail. As a result, general public attention to the pagan gods disappeared about 2,000 years ago. PAN-God of the Woods assumes that the pagan gods may still be active, living beings. If any of the ancient gods are still around in the 21st century, what are they doing now? If they are here now -- still watching, still powerful, still immortal -- where or how might we contact them? If Pan is still around which of us mortals could not use the helping hand of a friendly god once in awhile? --The Editor

Lawrence R. Spencer feeds and shelters his body as a small business consultant. He writes books to feed and shelter his soul. His quest is to create literature for and about immortal spiritual beings, which is the common thread of each of his books. Too many books and movies about the glory of being a body make us forget that we are who we are -- spiritual beings who possess, animate and motivate the universes we create and inhabit. is the author of 4 books including THE OZ FACTORS, the ground breaking evaluation of civilization based on exhaustive research and documentation of world history, scientific and philosophical anomalies and ancient archaeology. The book defines 12 common denominators of human thinking that prevent Mankind from finding workable solutions to the problems of life. His second book, PAN - GOD OF THE WOODS, explores the modern day adventures of the ancient gods operating in the computer age. It is based on years of research in world mythology, ancient pagan practices and philosophy. This book is filled with mythological fact, metaphorical characters, fantasy, poetry. It reveals the daily lives and points of view in a universe of immortal souls. Pan encounters a disembodied computer software company owner, Derek Adapa, who is accidentally shot by hunters in the Trinity Alps while on a week-end hiking trip. Pan guides Derek from life as a human being through death as a spiritual entity to rebirth as a newly aware and powerful being. Pan instructs and guides us, as he did at Marathon more than 2,000 years ago to

be all that we can be, spiritually. If you were a god, how would you change the world? THE BIG BLEEP is a spoof of the classic film noir genre detective story. Sam Shovel is a private investigator who ineptly stumbles into a different universe, beyond the realm of the real world. His side kick, Peter The Potted Plant is a stand up comic, performing nightly at "My Dear Watts Inn" whose patrons are both fictional and real life super heroes and legendary figures from ages past. Sam is the owner of The Un-Existential Detective Agency of America. His investigation leads to a new universe of self-realization that propels him from fictional character to sentient being. ALIEN INTERVIEW, published in 2008, reveals for the first time ever, Top Secret U.S. military transcripts of a series of interviews conducted with the pilot of the UFO that crashed near Roswell, NM in 1947. The interviews, and commentary notes that accompany the documents, were received from a former US Army Air Force nurse named Matilda O'Donnell MacElroy, who personally conducted the interviews over a period of 6 weeks in July and August of 1947. Her dying request was that the transcripts finally be released to the world. In a letter received with the transcripts, Mrs. MacElroy says: "Mankind needs to know the answers to questions which are contained in these documents: Who are we? Where did we come from? What is our purpose on Earth? If there is intelligent life elsewhere in the universe why have they not contacted us? It is vital that people understand the devastating consequences to our physical and spiritual survival if we fail to take effective action to undo the long-standing and pervasive effects of alien intervention on Earth." The book shows how the worldly religion has deceived people for such a long time. I think the fundamental theme of the book is that our souls never die. Instead, the souls are recycled and their memory erased by the evil alien intelligence for the purpose of control and domination. The common belief that you have to follow the light after death was another myth to seduce the soul to the ultimate memory erasing chamber. One US World War II pilot who died from the plane crashed in the sea reincarnated as a boy remembered every details of his past life, which is a well documented story. This tale suggests that once you go under the sea as a soul, your chance of reincarnation without losing your past life memory is great. Imagine what would happen if the world geniuses reincarnate without losing his/her past live experiences. Our civilization will advance with immense speed and power.

A REAL eye opener ! Will blow your mind away. Gives a LOT of credence to the whole UFO/ ET

debate. Helps validate "conspiracy theorists" in the field - theories become more factual. The alien gives a ancient history of planet Earth and old civilizations that is not commonly known. Learn that humans are "IS-BEs".

Fascinating book. There is so much we don't know and so many things have been withheld from us for thousands of years... but I think things are going to change. Long kept secrets are slowly being revealed by multiple insiders and whistle blowers. It is an incredible time to be living on this planet and watch all of this unfold!

I am always interested in all, that I do not know. That is why I read books like this one. I found the book quite interesting to read. But I do not know whether there is any truth to these allegations. I do read it all with an open mind, because all that I seek is information. The fact that one gets lost inside it all, without being able to know for certain what is truth, or false is quite interesting, for my curiosity keeps me reading books, like these.

Amazing! I have no doubt that it is true! This UFO crash is well documented. I never knew that there on that lived to tell a story. Though I have been to the UFO museum in Roswell NM. I want to go again after reading this book. I was sad when the book ended, I wanted more information!

Alien Interview, I could not put down the book, i read it in one day!! I believe all what it says, i think is a must read book for anyone that practice any type of spirituality. Claudia

Wow, talk about an eye opener. I strongly suggest reading William B Coopers Behold a Pale Horse first. This book is not for the squeamish. You must have knowledge of how governments operate before you delve into this fascinating topic!!

This is some interesting stuff!!!
