Kit Fischer, a conservation professional and river enthusiast, grew up paddling and rafting rivers across Montana with his parents, Hank and Carol Fischer, the original authors of *A Floaters Guide to Montana (Paddling Montana)*. Previous to his current work, Kit worked as a fishing guide as well as an American Canoe Association certified whitewater kayak instructor. A Montana native, Kit has explored nearly every mile of floatable river in Montana from Ekalaka to Eureka. He lives in Missoula, Montana, where he leads National Wildlife Federation's sportsmen's work in the Northern Rockies Region.

It provides good information on rivers, put in/take out areas, and the class ratings. Overall an excellent book to get if you are unfamiliar with any rivers you want to venture out on.

Excellent route information for people who want to canoe/raft/kayak down Montana's rivers. Very detailed and practical, geared towards fishing, with excellent information regarding:- access points- water flows during the different months- maps (would still get topo map for the trip) Practical, useful guide.

Excellent book.

I just got the new (3rd) edition. The previous (2nd) has been a dog eared addition to many many trips. This 3rd edition will be no different, the guide is laid out in an easy reference sort of way, gps points are handy if you really get in a bind, and the authors obvious first hand experience shows throughout. I've even found a few new access points that I was never sure about. Must have, even if you are planning a once in a lifetime float.

Paddling Montana is a must if you want to float the fantastic rivers that Montana has to offer. It provides real knowledge of the rivers, great backstories about the area, and the author also clues us in on conservation issues that each river faces and how we can help. This book is sure to find a permanent home under the driver's seat of my truck, right next to my flybox.
