I liked the book. I found some ideas on what to cook during the summer months when I do t want to heat up the kitchen with my stove. This book also gave me recipes that my 6 yr old daughter can help me with the cooking while teaching her.

Just what I needed. Easy to follow and good recipes. I now love my toaster oven

A total loss..only for complete novice cooks. Giving it to my grand son with a toaster oven-maybe he will use it.

I actually don't often follow recipes - it's more like I collect them for future reference. This is a very pretty cookbook in cover colors and the spiral binding - that's also important to me. But I have reviewed the recipes and many look doable - I don't like too many ingredients or steps.

Got this for my friend that lives by herself. I gave her my old toster over and she loves it so I got her some stuff for Christmas for it she loved this book she was like i could make a huge meal with that toster oven now !!

Just got to get down and do it! No experience with t/o but giving it a try! Biscuits and garlic sticks did really well.

I enjoyed this book since it offered small portions. It has easy to follow recipes and nice pictures. It's great for single people.

This is a wonderful beginners Cook Book for first time Toaster Oven owners. I would certainly recommend this for a great learning book. I love it.
