Hillcrest Medical Center: Beginning Medical Transcription

Synopsis

HILLCREST MEDICAL CENTER: BEGINNING MEDICAL TRANSCRIPTION, 7th Ed. creates a simulation approach to medical transcription that will give readers a working knowledge of the medical reports most commonly used in both inpatient and outpatient care settings. Readers will transcribe over 100 real medical reports including 10 comprehensive inpatient case studies and 25 outpatient clinic records. HILLCREST MEDICAL CENTER BEGINNING MEDICAL TRANSCRIPTION, 7th Ed. is organized by body system and includes full color anatomy & physiology illustrations and coverage of medical terminology. In addition, HILLCREST MEDICAL CENTER BEGINNING MEDICAL TRANSCRIPTION, 7th Ed. provides a review of proper formatting, grammar, and style in accordance with the AHDI's Book of Style. Transcribed reports include: history and physical examinations; consults; operative, pathology, and radiology reports; SOAP notes; and death and discharge summaries.

With the new changes, the 7th edition will be even more efficient in teaching basic transcription skills to a group of students. The use of information on the transcription field, the use of the various body systems, and the use of the various reports utilized will help give the student a very realistic view of what it is like to be a transcriptionist. - Katrina Boyette Myricks, Instructor, Holmes Community College, Ridgeland, MS. This text incorporates all the critical components of medical transcription, including anatomy & physiology and medical terminology from all specialties, medical

report formatting, and the standard processes involved. Students are given a real-world view of the MT profession and learn about the importance of maintaining a reference library and staying up-to-date with the ever-changing world of medicine through professional development activities. - Deborah K. Cresap, MA, M.S.S.L., Medical Assisting Program Director, West Virginia Northern Community College, Wheeling, WV.

Her long career included positions with the University of Texas Medical Branch in Galveston, Texas, and the Methodist Healthcare System in San Antonio, Texas. She began teaching online medical transcription courses in 2003, serving as an instructor for Gatlin Education and ed2go. In addition to this title, Carrie was the co-author of THE DICTATED WORD.

This book is used in Ontario at Ontario Colleges for Beginning Medical Transcription. It is critical to have the Audio CD in order to participate in the course. Because it was not bundled with The Student Edition Audio Transcription Exercises on CD to Accompany Hillcrest Medical Center Beginning Medical Transcription 7th Edition, there were 35 students SCRAMBLING with a teacher to get the course going without delay. should work with the publisher to have this CD included with the textbook. The directors at several Ontario Colleges would likely appreciate this as well as they were called to work with students individually to locate the audio CD for them.

I could not be more happy with this purchase. What would have cost me almost \$400 if bought new, I spent less than \$40 by buying this book and the audio disk separately. The book is like new and the CD intact. Thank You!

Excellent price I saved almost 90% of the original price. The book is used but I looks practically new. Very satisfied with the service.

Exactly what I needed for a great price!

pages are clean and cover clean

wasn't what i need.

This is exactly what I needed for class! The book came on time with the cds that I needed to do my class work.

Did not have the right cd
