Customer Reviews

Not impressed. Halfway through the book I decided the topic was a little too morbid. We abandoned

the Magic treehouse books altogether and have since converted to the Adventures in Odyssey Imagination Station series. Far more kid appropriate and the lessons they learned are much better.

No colour pictures in this Kindle book. Very disappointing! There was a sample of a fact tracker in another magic tree house book we have in hard copy - beautiful, full colour. There are plenty of graphics in this book, all black and white. What is the message for kids? That facts are boring? Not worth the \$5.....should've brought a coffee!

the little boy this was for loved his present

My granddaughter loves this series but I was shocked at how short these books are. I will find another series to buy for her. I don't think these are worth \$5 each.

My daughter loves this series! We are working on collecting them all.

My son is in second grade and doing a book report on Ancient Egypt. He used the magic tree house mummies in morning book as his report book and using this guide for facts. It is very appropriate for his level of reading and comprehension-and its great to see how much he is enjoying reading the non fiction aspects.

Cute story as expected with just enough facts to peek the interest of my 7 year old but not to scary for a bedtime read. Highly recommend, can't wait to read the next in the series.

Excellent condition, fast shipping and great price! Great for "new" readers that want to read chapter books
