Customer Reviews

This book is, honestly, horrendous. It provides a bare minimum of useful information, no examples of how to achieve goals, and no means for understanding beyond a simple sentence or two in many 'sections'. I returned it immediately after purchase.

I was looking to re-teach myself how to read drawings and blueprints. When I found this I used it to update my skills.

To whomever made this choice "Text-to-Speech: Not enabled" Not having this option turned on for this eBook is plain bulls***.
