Iowa StarWatch: The Essential Guide To Our Night Sky

Synopsis

With the down-to-earth style and far-ranging knowledge that have made him America's favorite stargazing instructor, Mike Lynch guides amateur and expert alike through the wonders of Iowa's night sky. Whether watching the sky from a backyard lawn chair or manning a high-powered telescope, stargazers of all levels will learn how and when to identify the major constellations visible at Iowa's latitude (40°43' N north). With chapters on the origins and movements of stars, the mythology of constellations, the phases of the moon, the planets, and even buying a telescope, this book serves as an accessible and in-depth beginner's guide to the night sky. It includes 12 monthly star maps for Iowa skies, 21 constellation diagrams, a local resources guide, a list of the brightest stars in the state, and more than 80 beautiful color photographs of the heavens.

Customer Reviews

The Wapsipinicon Almanac Spring 2007 "A good book, even a compelling book | I recommend it. Why? Simply put, there are few books geared toward the beginner with a serious interest in learning about the night sky. This is for those who want to learn quickly about the science of astronomy, learn about celestial objects visible in a backyard telescope and learn to choose and enjoy this instrument. Iowa StarWatch

With the help of monthly star maps, constellation diagrams, a list of the brightest stars in the state,

and more than 80 color photographs, America's favorite stargazing instructor guides readers through Iowa's night skies. The book includes chapters on the origins and movements of stars, the mythology of constellations, the phases of the moon, the planets, and the ins and outs of buying a telescope. --This text refers to an out of print or unavailable edition of this title.
