Riluo City (Blue Phoenix Book 1)

Synopsis

Sacrificing his life to protect his best friend was a decision which Hui Yue did not regret, yet who could have known that death was not the final destination, but rather the beginning of a new adventure into a world filled with demonic beasts and martial arts cultivation. Hui Yue soon found that within this world, strength was what determined your future accomplishments and there was no space for the weak. Embarking upon this new life, Hui Yue meets friends, experience betrayal, and starts his own journey of cultivation to overcome his limits and become strong.

There were a fair number of typos. I'd say there were even more than is normal for a book this popular. The writing also has lots of annoying time jumps, usually without a smooth transition. For example at one point he enters an inn and it's written from a third person point of view with a brief backstory to explain what the innkeeper thinks of this. Then three paragraphs later it abruptly starts with a first person point of view from the main characters perspective of him walking into the inn. I could see this being used to show an important event from multiple points of view, but this was not

an important event and happened all over the course of just a couple of paragraphs. So in general I thought the flow of time in the book was all over the place and a bit frustrating to follow. The action was pretty good. Drawing on previously established facts and not just happening however the author decides. The book has a lot of the eastern style meditation/cultivation magic in it. There being distinct power levels to break through and each one "purifying and strengthening" the body.

Out of all the books I have read through kindle, a fraction of those have characters that I love. Just a few of those have a group of characters I love. This is one of those few. I am invested in the MC and his friends. I actually care what happens to them. There are definitely typos and grammatical errors. It didn't bother me. I have never read a first time author who has characters this well written. She cares about them. It shows through her writing. It made me care too.

The author definitely needs a good editor, her writing is a "raw", but if you don't mind the flaws in editing and "style" it's a very good book, original and refreshing. Bottom line, I bought the next installment and I recommend to buy- enjoy

This book was very entertaining with good character and personality development over the years the book covered. I kept expecting some horrible thing to happen, like his mother dying, village pillaged, but it never happened, so not as much anguish as is often present in these types of books. I was relieved. I was very glad the book was much longer than books of similar genre since I really enjoyed the characters, plus I practice qigong so I also enjoyed the qi development aspect. Very novel ideas. I'll read more books by this author.

Riluo City starts in this world where a young man dies due to the influence of a possessed item and is reborn in another world with his memory intact and another powerful soul inhabiting his body. The story about the boy growing up and becoming a young adult in a hostile world, making friends and enemies along the way. There is no true overarching plot yet, although there are certainly hints towards something big going on in the background. Still, the story gives some character development and world building which I assume is not too different from the genre. Since I am relatively new to the genre, I also liked the explanation of how things work throughout the book. In that regards having a soul from this world placed in the magical one with a more knowledgeable soul informing what is going is certainly a good vehicle for me. I was also pleasantly surprised that even though the protagonist is something of a prodigy, he has to work for his victories and has the

occasional close call where surviving is more a matter of wits than power. The start is slow with some overly dramatic and extensive description and a lot of typos including a double printed chapter. The typos certainly lessen further in on the story and the descriptions become less flowery as well. I am also not entirely sure I like the might makes right that seems to be inherent to these stories, although the protagonist is not callous about it and only kills in self-defense. I am also not an overly big fan of arrogant protagonist, although it is not particular bad in this story and seems to fluctuate depending on how things went for the protagonist ;) All in all, a good story of a decent length. I will certainly read the second book when it is published. 3.5 stars rounded up.

sorry but i just couldn't get into this book. the premise sounded good though...

This is a really fun book. You need to power through the poor writing and editing to get to a great story.

The editing could use work, and there were a couple minor plot inconsistencies, but overall I liked the book. It had good length and plot. I look forward to the next.
