Color Coded EZ Tabs For The 2014 National Electrical Code

COLOR CODED
EZ TABS™
for the
2014 National Electrical Code®
CENGAGE Learning

- Complete set of tabs are compatible with the NEC® 2014 softbound, spiral bound, looseleaf or handbook
- Color-coded, adhesive tabs make it easy to locate important information
- Durable material is designed to withstand the wear and tear that accompanies regular usage
- Clearly labeled sections saves valuable time when looking for must-have information on the job

Peel and Stick in Two Easy Steps:

1. Turn to the first page of the index. Slowly remove tab from sheet and place at the bottom of the page, with the black vertical line at the edge of the page.
2. Turn to Annex D and repeat the procedure by aligning the lower horizontal line of the "Annex" tab with the top horizontal line of the "Index" tab. Repeat the procedure with each tab until you reach the top of the book, then start again at the bottom with the second row.

Remember, tabs hold fast on first contact with the page.

Synopsis

Navigating the NEC 2014 has been made easier than ever with these updated self-adhesive tabs. The NEC 2014 tabs are a unique offering that provide the perfect tool for organizing the code's various sections. Users can place the durable tabs onto the edges of their code, turning it into a reference guide with information at their fingertips. With such easy to access information, users will find themselves spending less time searching for the information they need and more time understanding it. Affordable and time-saving, they are a must-have for NEC users. Check out our app, DEWALT Mobile Pro. This free app is a construction calculator with integrated reference materials and access to hundreds of additional calculations as add-ons. To learn more, visit dewalt.com/mobilepro.

Customer Reviews

The color coded tabs for the NEC book work so good. They really help organize and make it easier to find what you are looking for. They are sturdy, sticky and have held up great. I put these in my code book and it made it easier to pass the electricians test. Besides the testing and school use for these, my code book is an everyday item I use. The tabs make it much easier to flip through. I used this to pass my 4 year electrical test, and passed with time to spare and flying colors. When a question came up, I could just grab the right tab and flip to exactly where I needed to find the answer. I will be getting a new set of these when the 2017 code book comes out because they are so awesome. I'd definitely recommend every person who carries a NEC book to

buy these. You won't waste as much time looking for your answers and codes. The colors are true and don't fade. It also takes a lot for them to fall off. In fact, I don't think I have had any fall off yet and I have had them for two years! It really is a wonderful tool and product. They were really thinking convenience when they made them. It was also easy to go through and install them in the book. It only took maybe 5 or 10 minutes to get them all stuck in there. There is clear instructions on how to organize them.

Easy to follow instructions on tabs and where to begin with starting them on your book. They suggest starting at the back of the book and working your way to the front of the book. The tabs were easy to place on the edge of the pages as they are clear and you can see exactly where they are sticking. Price is very fair for the amount of tabs and the quality of them.

Great tabs! They are clear and I do like that they have different colors (not certain this helps, but does add some aesthetic quality to one of the world's most drab books). Remember before purchasing; you have to put each individual tab on the book (almost 100). It's meticulous and a pain in the butt, but the end result should save some time down the road.

I am in a NEC code class. These tabs make finding information quickly and easily. Before I was flipping around like crazy, but all of the relevant sections have a separate tab. It works better than just having chapter tabs. Important Articles are highlighted.

Love these tabs. Very useful during class and at home to flip to a certain page. They are very durable, they won't just rip or fall off which is a plus. The only downfall is the need better instructions on how to put them in your book. Overall I would definitely recommend to anyone.

Best tabs you can get. Everyone in my class has these. Had another set that came with my code book and they don't have nearly as much as this set. And the color coding is excellent.

These are a great addition for your NEC Codebook. They make it easy to identify certain sections that you will use more often than others.

Perfect for 2014 NEC code book. Helped quite a bit. Great purchase
