#### Customer Reviews

These standardized reviews are not good for educational books. needs to somehow differentiate. This book was required for an adult ed French class. i am using it, and several others including Barrons Verbs and cd's from the library. the class is OK, not really intensive.

I'm a visual learner, and the writing and review are very helpful. I use it along with the free site duolingo.com and am learning much faster.

Great in multi-languages.

Great condition and looking forward to learning!

A great present for someone that want to get back to the French they learn in High School. I buy the book for adults, kids, and anyone that is ready to learn. Easy, and fun. Also the CD is great! IPod to the gym and you are on your way to speak French.

great, a useful review.

Impossible to synchronize the CD and the text.

Great book, like the CD it helps with pronunciation of my french. I'm trying to use it most days

Thanks
