Lots of good material and stuff to work with. I probably would have enjoyed it more had it not been for college deadlines.

Great service and very good quality book. Had to return it though, because it was not the right book. Other than that very pleased with the product.

Working for my niece, she just passed the test to get into college at 16 !!!!!

Awesome book!! I bought this book to improve my reading skills in college and it definitely works. The content and topics are perfect to develop logical thinking so if you want to improve your reading skills you're in the right place. Highly recommended!++

Great purchase, fast delivery. It is an educational book, what more can I say. It definitely was

cheaper than buying it from the school bookstore.

Great book for starting learning English composition

It's in the bad condition Not like the description

I received my package on time, brand new as promised, and wonderfully packaged. I'll defiantly be ordering more books from this vendor in the near future. Thank you so much!
