Used this little book more than any other

got for reference reading

Awesome

Very informative. lots of good ideas. Easy to follow directions. Can't wait to try some of the recipes. Very clearly written.

I think at some point, with exception to just a few pamphlets, we will own the entire collection of bulletins!!

This is a great resource for anyone learning about/how to grow and care for lavender.

Love this little informative booklet. I have purchased 2 books by the editors of Storey Books...my favorite is: Country Wisdom & Know How 2004..so when I spotted the little lavender booklet I know I couldn't go wrong. It's just a simple intro to Lavender for the beginner, much of the info is from the Country Wisdom book but at a fraction of the cost. I am happy with it.

helpful to me and easy to read. i have an indoor lavender plant & this book told me how to take care of it. there's not much available in other herb books about lavender.
