More Manga.

I'm actually really impressed with this coloring book! I have been looking for an adult coloring book, and none of them really did it for me until I saw this one! I also like the fact that there are even a few tutorials on how to draw some of the figures! It's all around pretty cool!

LOVE IT! I have taken to coloring lately and ordered a few Manga and anime books as I like the art style. This is so far the largest book I have received and contains tons of different art styles over lots of different characters. Very recommended.

If you use markers, the ink bleeds to the other side. And man, several of the pictures are quite sexual. This is not appropriate for younger people.

I think this is meant to scan and color digitally. It doesn't work very well with colored pencils

Awesome coloring book, a good bit of detail, some of reviews talk about pictures, i think its kinda tame compared to reviews i saw which led me to believe it was a little sexual in nature

I actually have three copies. I am coloring two in sharpie, and the reason it is two of them is because the pages are double-sided. The third is so that I can make copies and color them again.

gift

NOT for children - like my 11-year-old granddaughter. Cheap enough that I'll cut out the "adult" pages & give it to her.
