Customer Reviews

I love this book! It has many different designs including florals, birds, butterflies and dragonflies. All of the pages are on single sided pages with black backing, so you can use any medium including

pencils, gel pens, and markers! I would still put a buffer page because of minimal bleed through, with alcohol based markers. Attached are some pictures from the book. I digitally colored the first one.

50 original designs by Nathaniel Wake and they are beautiful! Botanical Bonanza 2 has a huge variety of florals including butterflies and birds in many of them. Some of the designs have black backgrounds and will be dramatic when colored I'm sure. The designs are printed on one side of black backed non-perforated slightly textured paper. The design does not go into the spine so you can easily cut them out of the book for coloring or displaying. I will be exploring techniques on how to bring these beautiful works of art alive, I so want to do them justice. I highly recommend this book to my friends and other colorist, you won't be disappointed! There are bonus designs in the back, samples of his other books, I have 6 of them and will continue to purchase from this artist.

this book is as good or better than the first one... I really enjoy Nathaniel Wake's books.. I have almost all of his books. I have included a couple of the pictures from this book that I have colored

Who loves birds, butterflies, and flowers I know i do.. and Nathaniel Wake delivered that with this book. I enjoy all pictures in this book pictures soon to follow

I love this book more than the first one. It has beautiful pages of flowers, butterflies and birds. I have included some of the pages I have colored. This is a must have for anyone who enjoys coloring.
