Subrogation Of Water Damage Claims

Synopsis

This article details methods for the property and casualty adjuster to recover water damage claims in subrogation. Water damage is occurring more frequently as newer homes contain more interior plumbing, and the cost to repair damage caused by water is ever increasing. Subrogation used to be mostly limited to automobile claims, but no more. The sharp adjuster will use the methods described in this article to recover more dollars on their water damage claims than ever before. Written by a veteran adjuster with over 20 years of experience in the property and casualty field, David W. Cofer writes from personal experience as he details specific opportunities for subrogating water damage.
