The Pattern Companion: Scroll Saw

Synopsis

Stimulating and instructional, this resource for scroll-sawyers and woodworkers goes beyond the usual basics manual, offering a wider range of patterns and useful finishing information. The vision-expanding projects from such masters as Patrick Spielman and Kerry Shirts help intermediates take that next step and become accomplished artists. Among the beautiful, skill-enhancing options are decorative scrollwork; "painting" with wood, using segmented and stained pieces; and scrolling and sculpting. Craft graceful ornamental birds with elaborately scrolled feathers, and suspend them from wire. A quick and easy Jumping Jack Santa toy will help make Christmas merry. Even beginners can complete any of the colorful and adorable animal portraits in wood. Or try elegant clock projects, home accessories, signs, and other favorite themes.

Book Information

Series: Pattern Companion

Paperback: 192 pages

Publisher: Sterling (November 1, 2004)

Language: English

ISBN-10: 1402712693

Customer Reviews

Great Patterns

PROS: The patterns in this book were highly varied and of excellent quality. After seeing Mr. Boelman's work in "Decorative & Ornamental Scroll Saw Patterns", authored by himself and the late Patrick Spielman, I was more than eager to try this book. CONS: After purchasing and receiving the

book by post, I came to realize that most of the patterns in this book were already in "Decorative & Ornamental Scroll Saw Patterns". Authors shouldn't be so greedy. They should publish their work once and only once if they want people to keep purchasing their books. There were some extra intarsia patterns, but some of these are to be found in other publications already. I feel like I spent my money for nothing... However, if you don't own the other book, I found the patterns to be excellent!
