Customer Reviews

Even though this book is relatively new a lot of the information is already dated and it fails to address some of the more obvious needs of a traveler. Its not quite as good as some of the other Lonely guides I've used in the past. That said, I'd have been pretty lost without it,,,

If you have plane to visit Myanmar, this book is direct for you. There are great guid sistem and everything what you need to know when you are visit that place. In this short book is great informations that contributed greatly to my understanding of Myanmar.
