Customer Reviews

Homemade Meals Fast: Quick and Easy Electric Pressure Cooker Recipes Recently got an electric pressure cooker and still learning how to use it. The recipes aren't cast in stone so there's a bit of play to getting them to come out just right. Free cookbook is included. This book starts out with the benefits of using a pressure cooker. Also about the parts of the cooker and what each does. Each recipe comes with times for prep, cooking time also servings. List of ingredients, mostly fresh, and details on how to make it. At the end is list of nutritional information although it has fat listed it doesn't break it down into the normal 4 parts. Book is broken up into recipes : poultry/meats, fish, and desserts. Didn't find many that we could eat, we have very low fat, no saturated and very low sodium in our diets. Other works by the author are highlighted at the end. A KEEPER!

It's been quite a number of years since I used a pressure cooker, so I was looking for a cookbook that could offer me some good recipes and some tips on using the cooker. **HOMEMADE MEALS FAST** delivered both. I liked that the cooking and prep times for the recipes were provided, too. My mom used to make rosemary chicken and there's a nice recipe included for that dish. I enjoy many vegetarian dishes and I plan to give the Feta Sprinkled Couscous with Acorn Squash on Top recipe a try soon. I really like the inclusion of the recipes for side dishes. I don't often think of preparing a side dish this way.

I'm just learning how to use my Instant Pot so this has been a great reference for me. I'm looking forward to trying more recipes.

I loved this cook book. I recommend everyone to read this book.

What a fantastic addition to my instant pot. Looking forward to trying many delicious recipes.

I've recently read a LOT of recipe books (for slow cookers, pressure cookers, and the Instant Pot), and this is easily the best!!! Love the nutrition, serving size, and detailed cooking information! Plus it includes so much bonus content!

This guide is absolutely amazing. I know the power of the pressure cooker in making food quick and easy. However, I have always assumed that the flavor is just mushy and tasteless. Well, that is what I felt until I tried the amazing recipes in this book. I love the fact that this book has pictures of the different recipes. Even the kids love the recipes from this book. They want to help prepare the meals because they are so easy. It has become a new family favorite activity around the pressure cooking making food together. This was an amazing book on multiple levels!
