The Mythical Creatures Bible: The Definitive Guide To Legendary Beings

Synopsis

Fabulous animals, specters from the shadow world, nature spirits, and sacred beings: these are the monstrous, marvelous, and mythic creatures that have come down to us in folklore and legend. Some probably have their origins in reality; others spring completely from the imagination—and they are all here, in this stunningly illustrated bible. It's rich in history and images, and international in scope, covering dragons and serpents; weird insects like the Aztec Itzpapalotl; zombies, golems, and banshees; the watery Undine; the Monkey King, Sun Wukong; and much, much more. A fascinating and informative work.

Customer Reviews

A full-time author and editor, Brenda Rosen is a student of mythic traditions and ancient cultures. She is the author of a number of titles on mythological and spiritual themes, including Mermaid Wisdom and The Atlas of Lost Cities for Godsfield Press and Crystal Basics for Hamlyn. --This text refers to an out of print or unavailable edition of this title.

This book has creatures you're familiar with and ones you've never even heard of!! The illustrations are beautiful. I needed a good reference book for when I wrote about mythical creatures and this was beyond perfect.

I like the layout and the information, it's easy on the eyes and has decent pictures. It's a good quick reference guide when I write.

Pretty artwork, and really cool descriptions of mythical creatures.

This is a really fantastic book if you are looking for descriptions of mythical creatures. I love writing and this book has been a great help. I would rather have a book to flip through than search the internet for mythical creatures. I have enjoyed the illustrations as well. I have nothing bad to say about this book. It is the best I have found so far.

i liked this book. it seems informative, well-researched and well-presented. I only wish two things: it was a bigger book(its a smaller size from normal); and that there was more info in some spots; for instance, the Chinese zodiac is cool, and interesting on the history it presents, but it only touches on the animals involved, and only a couple of those. I do recommend this book, it has tons of world myths and creatures, but don't expect an in-depth look into each.

i love the pictures and the stories that are in this book it makes it very interesting and that is what i love to read this book.

I bought this for my nephews and they love it. got them reading . fits into back pack .arrived earley

This is a wonderful little book you must have if you have interests in mythical beasts! I love the illustrations and it is put together really well.
