Customer Reviews

I'm almost sure that overwhelming majority of people has some addiction. What about me? Most likely, this is my tendency to sit at the computer and work. My wife, for example, doesn't imagine her life without watching her lovely soap operas and detectives. Unfortunately, some people have addictions that can destroy their life and life of their family. Usually, to overcome them is damn hard. Moreover, treatment that works for one may not work for another. The purpose of this book is to help you in getting motivated, planning, and fulfilling all needed steps for quitting. The author analyzes different types of addiction and describes in detail what is waiting for you and what you have to do for successful outcome. I think, this is done in not bad manner, and result really can be positive! Only don't forget about necessity of professional treatment for some cases.

If an addicted person is still sane enough to read and follow instructions, this book is good. It is basically directed to the reader who is presumably looking for ways to conquer addiction. The advice given are also great for those who are living with persons suffering from addiction, given if they really want to help him or her recover. It takes more than just advice, though. But reading this will be a good start towards recovery. It's just the tip of the iceberg.

This book was a good read. It really gets in to some good info on reasons and motivations for wanting to lead a life of sobriety and free yourself of your addiction. Covers several topics such as alcohol addiction, drug addiction, gambling addiction, and even food addiction.
