Customer Reviews

Really really really well done book, collecting the best images, stories and content from the Official X-Files Magazines back in the day. This was obviously done to cash in on the upcoming new limited series show due on Fox in January 2016, but who cares why? It's here and it's all that matters. This wasn't a quick job, Titan Comics really took their time with this set and gave us fans a very nice book here. Can't wait for more volumes!

I love almost everything X-Files. I can't wait for the new limited series to be on the air and I hope it

becomes long term. But anyway, buy this in book form!, not the kindle version like I did. I'm reordering it in book form because I hate the Kindle version. The only one out of all the books I've purchased through Kindle. I can't read the pages on my phone because the images are too small to read. They're only a little larger than thumbnails. You can zoom each page individually but only one page at a time which really sucks, and then the pages are still hard to read. It's like you're looking at pictures of the book's pages. Not user friendly for me so I'm ordering the paperback version. Volume 2 will be out on March 8, 2016 & volume 3 will be out on June 7, 2016 according to 's pending release dates. I can't wait!

Great book and handy for referencing episodes

Great!
