# Life In A Farming Community (Learn About Rural Life)

## Synopsis

People first domesticated wild animals and plants more than 10,000 years ago. The first peoples of North America quickly learned to farm using hand- and animal-power. As technology developed, farming machines were invented. These helped develop farming in many regions of North America previously too difficult to cultivate. From 1840 to 1880, Wisconsin USA became the breadbasket of America, and crop- and livestock-farming developed quickly. The village of Monticello is famous for its dairy farming and cheese. The community is still largely based on this. It has a population of about 1,200 people and is the focus of this book about life in a farming community.

## Book Information

Lexile Measure: 860L (What's this?)

Series: Learn about Rural Life (Book 1)

Paperback: 32 pages

Publisher: Crabtree Pub Co (August 1, 2009)

## Customer Reviews

The 'Learn About Rural Life' series provides an outstanding set of titles for elementary level readers. Each book is 32 pages long, includes an index, glossary, and bibliography including web sites, and is a top pick for any lending library. FARMING COMMUNITY, FISHING COMMUNITY, MINING COMMUNITY and FOREST COMMUNITY each provide overviews of what it's like to live in a rural community that depends on different industries. Follow the daily lives of families living in a selected

community to see the past, present and future changes affecting that community and its industry. These will lend to reports and study.
