## Synopsis

Since the first edition of Collectors Encyclopedia of Depression Glass was released in 1972, it has been Americas #1 bestselling glass book. Gene and Cathy Florence now present this completely revised seventeenth edition with 156 patterns and almost 400 beautiful color photographs. With the assistance of several nationally known dealers, this book illustrates, as well as realistically prices, items in demand. Dealing primarily with the glass made from the 1920s through the end of the 1930s, this beautiful reference book contains stunning color photographs, vintage catalog pages, updated values, and a special section on reissues and fakes. In addition, for the first time all the pieces in the photographs are identified and cross-referenced with their listings. This dependable information comes from years of research, experience, fellow dealers and collectors, and millions of miles traveled by full-time glass dealers Gene and Cathy Florence, Americas leading glassware authorities.

love this book

Big colorful pictures and very informational.

The book has a well written narrative for each pattern along with photographs so that you can identify the dishes you have in your collections. There also is a guide provided to give you an idea of the value of your dish. A very useful product for the average consumer if you are estate sale shopping or having a garage sale.

In my opinion, this book was a big disappointment. I was expecting more of an "Encyclopedia." The book provides incomplete lists of what specific pieces make a complete set in a particular color/pattern. The photos are lacking in detail making pattern identification difficult and/or just plain lacking so you can't determine what a particular piece to a set should even look like. A better title would be "Examples of Depression Glass and Values."

Wife likes all of Gene Florence's books.

This is a wonderful book, it has helped with identification of glass items and so called wanna be's

Good book nice illustrations for anyone interested in collecting depression glass

This book is a good description and selection of Depression glass. Most of the photos are B&W with a few color plates in a section there are 225 pages with a 22 point table of contents and a decent index. This covers glass from the early 20's through the 30's this was machine-made and fairly inexpensive. They used bright colors including ruby, amethyst, bright green, iridescent carnival orange, aquamarine, cobalt blue, pail pink and yellow. The pieces are mostly tableware.
