Customer Reviews

As part of my study routine I took a practice test twice per week. I had originally used the larger practice test booklets that contain 10 tests. Those worked well, but the books are so large and the tests are generally several years old, so I didn't feel like I was really getting the true feel of what the actual test would be like. During the final 3 weeks of my study plan, I started buying these test booklets for my practice tests. These booklets cost a little more, but the tests are much more recent and they are in the exact format as the actual LSAT. Taking these practice tests helped me ace the LSAT's format. When it came to the actual test day, I was very well prepared and I scored a 178!

As the title suggests the kindle version is completely unusable. The formatting on the kindle app for Mac is nothing whatsoever like that of the actual test. This is particularly burdensome on RC sections in which the passages are broken up over several pages with no way to seamlessly scroll between them. As other reviewers have stated, there is no (legal) way to print the contents for the purposes of blind review. I am Very disappointed in my purchase and I will be requesting a refund. Save yourself the hassle. Buy the print version.

I'm currently studying nonstop for the lsat - this is legit test forms from years past and is the best prep you can do. Totally worth the money. Invaluable practice!

This book does the job! My wife is currently is studying to take the LSAT and this book series is very helpful in helping her grasp the concept of the test. Plenty of content in each book for practice testing!

This was the first test I took, so I purchased it before I retook it the next fall. I used it to check my progress. Using the official pretests really helps!

Good timing on shipping. Clean test.

This book does a great job of contributing to the study of the official LSAT and the actual format in which it will be given.
