# The 100+ Series Biology

## Synopsis

Give your students the reinforcement they need to learn and retain the knowledge taught in a high school biology course. Diagrams, puzzles, multiple choice, and matching columns will enhance any current biology text and laboratory experience. The worksheets included cover every area of biology, including cells, plants, laboratory equipment, animals, insects, and more.

## Book Information

Paperback: 128 pages

Publisher: Instructional Fair (January 29, 1999)

Language: English

ISBN-10: 156822186X

ISBN-13: 978-1568221861

Product Dimensions: 8.4 x 0.4 x 10.8 inches

Shipping Weight: 8.8 ounces

Average Customer Review: 4.2 out of 5 stars 29 customer reviews

Best Sellers Rank: #170,487 in Books (See Top 100 in Books) #48 in [Books > Teens >](#)

[Education & Reference > Science & Technology > Biology](#)

## Customer Reviews

I really like this book but I think it is probably geared for kids grade 6-8. It is basically just worksheets so if you are looking for an in depth text this isn't going to work. We use it to study terms and understand how things work together. This is more useful to younger ones than a boring, lengthy text.

I purchased this book for grandchildren and it really helped them a lot. I would recommend this book to all.

This was used for my daughter during Classical Conversations group. I like the way the book is laid out and the price on was better. I will recommend buying from again.

Great for Do Now, while the teacher takes the attendance. Also user friendly for students in need of motivation to begin assignments.

Good book but some of it was already filled out!

Perfect for teaching Biology!

I probably won't find the need for all of these graphic organizers and diagrams, but there are plenty of things I've already used and you never know when I might want to use some of these things as extension activities or extra credit for appropriate students.

This has good worksheets. I am sure I will get lots of use out of it! I also recommend the chemistry edition.
