It's an awesome textbook!!

I bought this book for MBA class and it arrived faster than anticipated and I was really happy. That was my original review for this item but for whatever reason, refused to publish it. Since this is designated book for a specific class and so I really can't comment on its content but from a buyer standpoint, the item arrives early, safely, in good condition, these are what I care. Anyway, the seller did good job.

I used this book in a class I took on International Marketing Research. It offered a decent overview of international marketing research concepts, but also was fairly dry in parts.

I needed a cheap alternative to paying full price for this book. It was used, but it serves it's purpose!
