Gastroenterology: Eosinophilic Disorders (Audio-Digest Foundation Gastroenterology Continuing Medical Education (CME). Book 24)

Synopsis

Purpose: Audio-Digest Foundation CME/CE activities are designed to provide its learners with continuing education that will help identify clinical problems in their practice settings, provide content to help to solve those problems, and increase their application of knowledge to practice. Audio-Digest Gastroenterology is specifically designed to provide the participant with state-of-the-art information, including, but not limited to, procedures and techniques and/or the diagnosis and management of: Inflammatory Bowel Disease Irritable Bowel Syndrome Gastroesophageal reflux disease Ulcer disease Liver disease Pancreatic disease Cancer within the digestive system Endoscopy Esophageal disease Colon problems Transplantation Nutrition The goal of this program is to improve the management of eosinophilic esophagitis (EE). After hearing and assimilating this program, the clinician will be better able to:

- 1: Recognize the clinical, endoscopic, and histologic overlap between EE and gastroesophageal reflux disease (GERD).
- 2: List the 9 factors that can distinguish EE from GERD.
- 3: Recommend appropriate dietary management in the treatment of EE.
- 4: Discuss agents used in drug therapy for EE.
- 5: Describe the 3 diets used in the nutritional management of children with EE.
