## Customer Reviews

This is a good choice for someone who is just getting started with the melodica. My daughter, who studies piano, was able to start playing immediately.

5stars

A book of easy to play pieces for the young and developing cellist with works containing first position and extensions.

Great set of solos with accompanying CD that has play along cello or just the piano accompanying you as you play. A lot of fun!

The selections are scored in a relatively easy fashion, however you need to have some skill with the cello to

Only a few arrangements in this book that I really liked. I could play them, they just don't sound that great. With all honesty, it might be because I've only been playing a year.

Entirely too many blank pages of paper. The title of each piece of music should be written in English. Most of the music is too difficult for 1st year students.
