## Synopsis

"Very often people, not thinking a lot, just imitate this or that long-lived. For example, they resort to vegetarianism, referring to the experience of Bernard Shaw and other famous people. However, we should remember that longevity could be the result of a happy random coincidence of the individual body features and the nutrition type selected by this person." One day in early January of 1995, during my trip to Europe, I opened Times and found a curious article inside. Here I read this article entirely, to the last word, "Along life's diet" "Post office employees in one small Scottish town were greatly surprised having received a letter from Brazil with the following text: Mr. Douglas, the land will be purchased in Parana state. People are looking forward to you to come. However, Mr. Douglas himself was not surprised with this text: he was invited to Brazil to help in arranging a colony of long-livers. Mr. Douglas is a microbiologist by specialty, and by lifestyle, he is a committed vegetarian. Back in his youth, during a trip to California, he saw millennial sequoias in the park. He was astonished by the fact that no one of these trees died from old age. People commit suicide at the table with a knife and a fork." These words by one surgeon became a big warning for Douglas at selecting food for all his life. For many years, already, the Scotsman's diet includes only vegetables, fruit, nuts and fresh water. He is still hale and hearty and looks much younger than he should in his 80ies. "NATURISM" (from the Latin word "natura" meaning "nature") is the aspiration of people to the natural way of life, close to the laws of nature. At this, 'naturism' provides for the maximal use of natural factors: the sun, air, water, raw vegetarian food, current physical loads. People following 'naturism' ('naturists') stop using alcohol, tobacco, coffee, tea; don't eat the food of animal origin, thermally processed and canned food. Their diet consists of fruit, vegetables, herbs, nuts and pollen, and seeds. They consume a lot of fresh and dried grapes, grape juice, leaves, tops and sprout awns. ## Customer Reviews

This arrived while I was out of the country and I missed the window of opportunity to return it. A sorry disappointment. Not worth the paper it is printed on, let alone nearly \$18.

What is Raw Foodism™ is a book for people who are interested in healthy lifestyle and would like to jump into the healthy living program. The author proposes to protect our bodies not with drugs, but with the things the nature created for us, and the thing that each of us has to consume daily. This thing is healthy food. Four steps provided in this book are quite simple and it doesn't sound complicated to make a menu with the help of these tips. The book gives a decent amount of raw foodism theory. In the end, we get the lists of healthy products that will help to choose the right options for this lifestyle.

In this world today, fast food is all around and it's not that easy to avoid it. But after reading this book, I learned that the only fast food I should eat is this fast food. It's easy to create these meals, it's fun to make them and they taste amazing.

I received it

We all know that we are what we eat. This is why I loved the insights this book brings. I followed the recommendations in this book and I am feeling much energized already. I would recommend this book.

This book is very informative for me about healthy foods and what healthy foods really is. This book is well written and able to convey the that eating real healthy foods will gives you a lot of benefits.

I bought this book for my sister since she likes topic like this. She told me that this book is well written and very detailed about it's topic. And also, this book is helpful for her yo have a healthy living.
