Just returned from an extensive road trip in Sweden (August 2015). I'm not a big GPS guy, but prefer maps when possible. This Marco Polo map was excellent for my purposes. I read reviews which called it "bulky," but my word would be "sturdy." I like to fold a map tightly so that I can read it with one hand and then stash it next to the driver's seat til I need it next. This map worked perfectly for me. Plenty detailed and perfectly accurate. (By the way, Sweden is a pleasure to drive in!)

Over-sized and very detailed. Accurate. I would recommend it. It is bulky but that is a minor consideration. Buy the map and enjoy.

Other reviews seem correct. Very detailed but too big to use for travel.

BIG map of the entire country of Sweden. As others have written, its too big to use while you are

driving. Its also somewhat difficult to unfold. However, everything is there and its useful.

This is the kind of map I was looking for. It is very detailed, which was what I was looking for.

This map was very useful during our trip to Sweden. It is very detailed map, worth buying if you plan to do a road trip.

Map is very large and detailed but will help you find certain towns, etc in Sweden. Best used on a dining room table. I can't imagine trying to use it driving in a auto.

This map worked well for us here at home but we found it too large and awkward to use as a car map. The cardboard cover was also awkward.
