The Greatest Dot-to-Dot Super Challenge Book 5 (Greatest Dot To Dot! Super Challenge!)

Synopsis

These are definitely not your father's dot-to-dots. With no clues given to the final image, numbers into the thousands, and amazing detailed pictures, *The Greatest Dot-to-Dot Super Challenge* provides a whole new level of challenge and intrigue. Author and artist David Kalvitis continues his Dot-to-Dot revolution by introducing a variety of brand new puzzle inventions. The patent pending Arrow and Compass puzzles provide unique methods for connecting points to reveal a picture. Other new puzzle designs include Alpha Dots and ABC Sets as well as double page spreads with over 1,300 dots. Kalvitis definitely had older kids, teens and adults in mind when designing his puzzles. With his ever-present attention to detail, increasingly complex images and fine-tuning of his craft with each new book, *The Greatest Dot-to-Dot Super Challenge* raises the bar for dot-to-dots. Ages 8 to Adult. From the Author Connect-the-dot puzzles are a fun, quiet activity that I always enjoyed as a child. As an adult, I found that all the books available were for young children just learning their numbers, with drawings that gave away the final pictures. Being a lifelong puzzle fan, I thought it would be fun to design a sophisticated and challenging dot-to-dot book for older kids. My objective was to create a magical dot-to-dot experience, not only by increasing the numbers and image quality, but also by inventing new and refreshing ways of creating pictures. Adults repeatedly tell me, I used to love dot-to-dots as a kid! One of the most satisfying surprises is that grown-ups enjoy the puzzles as much as kids. It is also exciting to hear of the numerous ways that the books have been used for teaching and rehabilitation. *The Greatest Dot-to-Dot Books* have won multiple awards and the puzzles can be found all over the world in newspapers, magazines, catalogs, various stores and on the Internet.

Customer Reviews

"David Kalvitis has the best set of Dot - To - Dot books you can purchase. The others are cheap imitations and don't come close the "world class" quality David brings to his work. The best thing about David's work is he is constantly fine tuning his craft to make the next book even better.

I'd like to think it's because I've tried to push dot-to-dots to a new and unexpected level, striving to create a modern day dot-to-dot revolution! Have fun!

I'm the type of person that has a lot of anxiety and I always need to be moving my hands or doing something to keep my anxiety in check. I have found that doing things like coloring, fiddling with small stress geared toys or playing a game on my phone really helps. I received this book yesterday and I'm almost positive I immediately finished like ten of the puzzles. I love that is it not just your average dot to dot puzzle on every page. There are different types of puzzles to challenge you a little bit more rather than just finding the next number. This book has definitely impressed me and it will keep me busy while I'm traveling as well! Things like this are a very good way to pass the time.

This is a cool book. It arrived really fast! Some of the puzzles are a little hard to do, but they are fun.

My father had fun of me, asking how old I was to be doing a dot to dot, so I gave him the book to finish what I was doing (I was on a 2 paged one.). He started it and was trying to follow the directions and said that he had no patience for it, and that is true, you need patience to do some of these. I started to notice that I was able to pick out symbols and the numbers faster and faster the more I did. It made me focus on what I was doing and look carefully because I didn't want to mess up. I think this would be something good to get an older child, 12 or so, probably even a little younger to do. I think it would make them stop and think and probably improve some of their skills over time, and they are fun too!

This ruined my life. Because this made me realize that dot-to-dot isn't just for kids. It made me fall into the deep, deep world of dot-to-dots. But on a serious note, this was really fun. I bought other dot-to-dot books after I finished this, but nothing made me more focused than this book. It contains not only classic dot-to-dots, but advanced, varied versions too.

Love David Kalvitis' super challenge series. This is my third book & like the others, the pictures are challenging without being impossible, there's a fun variety of puzzle types, & it's enjoyable feeling smart after completing a book. ã Â Â^Â,

Very entertaining. The puzzles start out easy but as you get further into the book they increase in details and you hardly know what you're "drawing" until you're done. Great as a time filler or if you need something to do during the commercials. I will definitely be purchasing more of the books by the same author.

This is not your typical dot to dot book, it is flipping amazing!!! I have always loved dot to dot as a kid and this guy is a genius! The only problem with the book is that it isn't longer. I plan on buying all his books. My 8 and 10 year old are loving it too. Some are super hard for them but with extra concentration they got them. Love this book!

I bought this book for my mother who is 86 years old. I thought that it would be good exercise for her mind and her dexterity. I was right. She loved it and she finished the whole book. I had to buy her more!

GOOD BOOK
