Linda Goodman's Love Signs

Synopsis

The 1968 publication of Linda Goodman's *Sun Signs* popularized astrology worldwide. Magazines and newspapers began running regular astrology columns and Goodman contributed insert articles into the mass circulation women's magazines. An ever increasing percentage of people knew their sign (as well as yours) and studied astrological tendencies. Linda Goodman's *Love Signs* addresses and answered the question asked by everyone familiar with astrology--how do I relate to someone of another sign? Each sign is "related" to the twelve signs of the zodiac in a different and unique way. Each section addresses the differences for a male and a female with the same sign matches. This edition of Linda Goodman's *Love Signs* has been fully updated with current references and Goodman's magical first-person prose has been preserved so that the reading experience is as enjoyable as when this work was first published. This ebook edition of Linda Goodman's *Love Signs* is the first time that this classic work has been available in electronic format.

ABOUT THE AUTHOR Linda Goodman is a native of West Virginia. She popularized astrology with the publication of her book *Linda Goodman's Sun Signs* in 1968, which is the only astrology book to ever appear on *The New York Times* bestseller list. Since then, it has sold tens of millions of copies worldwide and is the single most widely read introduction to astrology available. Ten years after the success of *Linda Goodman's Sun Signs*, Goodman published *Linda Goodman's Love Signs*, which answered the question posed by almost every reader of astrology--how does my sign relate and interface with the twelve other signs of the zodiac? *Linda Goodman's Love Signs* was as big an international success as was *Linda Goodman's Sun Signs*.

Customer Reviews

Don't let the age of this book (1978) deter you from joining those of us who have had the sheer splendid pleasure of partaking in its highly-detailed information concerning the correlation of sun signs and the pivotal role they play in the intimate relationships between people. At first sight, the book is very meaty (meaty to mean that it's a thick book), filled with pages of not only applicable love-bitten tidbits, but also, irrefutable advice (for the price) on levels of love that which current couples as well as those seeking cupid can actively attain and maintain simply through understanding and appreciating people for what the aspects surrounding their birth means. With this book, you become equipped with love-knowledge, a knowledge that empowers you with an acute comprehension (as seen through Linda's vision) surrounding love-comparability based on various sun-signs. Linda went through a great deal of work and research to write about how each sign interacts with each other in relationships. She delves deeply into why some sun-signs work, why others struggle, but most importantly (a statement worth noting) is that while Linda's descriptions on blended-love based upon aspects of certain sun-signs seems quite accurate (from my own professional studies on human behavior) she makes it very clear to stipulate that ANY relationship can work if you TRY. What to Expect: You can expect to see relationship comparisons for (just about) each sign. It has been my experience that people who are merely (into horoscope readings) tend to be only interested in their personal sun-sign or only that of the person with whom they are involved. When in actuality, embracing an conceptualization about all of the signs is your best tool as it will guide you not only through a path of self-realization, but help clarify possibly how other people connected to you professionally, personally and in love all function based on certain aspects determined by the stars at the time of their birth. Open up your mind: LOVE is a short word with an in-depth meaning. LOVE can be applied to that with a partner or LOVE for your friends and family. For some, love comes naturally, some have to work hard at love, while others decide to simply act as if love is there when it's not. Whatever the case, this book will explain how sun-signs interact with each other and hopefully provide you with a start on love-connections or the ability to improve what you already have. Caution: No matter how good the book is you should still rely on your heart to feel

out situations and to see through people regardless of whether the good book says you two are a wonderful match. You should pay attention to any such emotional common sense and the reality of your situation at hand irregardless to what a daily horoscope says. Linda was a phenomenal astrologer and relationship expert who was definitely ahead of her time.

Have purchased several of Linda Goodman's astrology-related books. All of them offer much more information on life, on one's belief in their choice of a Higher Power, and are just plain comforting and uplifting, without constantly injecting astrology into everything she writes. Love her writing style, and the positive feelings she gives about life in general.

This book seemed to be spot-on compared to the people in my life with these signs. I have not read any of her other books, but have heard that her sun signs book I'd a must read. I only gave it 4 stars because I'm not into astrology enough to consider myself an expert.

Ok when I first got married this is the first book I ran to. If your having trouble with your relatives, spouse, coworkers and you wonder why just look at their sign! This book has given me a heads up countless times. Especially when dealing with my leo husband and understanding his families quirks. This made the transition so much easier. She gives you tips, hints and understanding on the other person. A must have in any persons library.

Although there have been many years since this book was first written, I can find no better book that explains how different people can inter-react with each other in ANY kind of relationship. Don't be fooled by the title, although this can definitely be an asset to lovers, you can also help yourself to understand friendships, work relationships, and even how to most positively deal with acquaintances by reading the book. Her general information on astrology is also very easy to understand. My #1 go to astrology work!

Her information has been more than accurate over the many years I have referred to this book. I don't live my life by astrology, but this book is in the neighborhood of being about 75% right. Even when she described another person's characteristics and traits that I didn't agree with, over time more and more of that person's real personality came to the surface and what she said turned out to be right. It's more of a book of guidelines into potential relationships. Good place to start.

Every time I acquire this tome it , somehow, disappears from my library. I understand that this is one of the most in depth astrological rendering on relations and relationships but I wish it would be returned. However, this book gives you endless pleasure and a great insight into the the stars' influence on love affairs. The writings of Linda Goodman are so intriguing and entertaining that, even if you are not a fan of astrology, you will enjoy this book. Hopefully, this is my last purchase of this one even if I have to place it under lock and key!

Linda Goodman is the one we should go to for astrological infor. Everyone should have this and Sun signs. Been reading for 20 years. They've never let me down.
