Don’t be put off by the title. Even if you’re not raw or vegan, these desserts will be the best you’ve ever tasted. I couldn’t wait for this book to come out. This cookbook is amazing and I’m not even vegan or raw. My husband flips through the pages at night on his eReader and says, “What are we going to make this weekend?!” and “Can we make this one?? OH! Nevermind. Can we make THIS one?!” These days we have to make double batches of everything and we limit ourselves to one piece of dessert a night (each). In the evenings on the way home from work, we often say, “Oh! We’ve got dessert in the fridge!” And we sometimes are known to eat dessert while making dinner. I ordered the ebook because I was dying to have it, but will now go back and order the paper copy just for ease of use. I own many cookbooks, but this one gets 10 times the use of any other. I was introduced to Emily’s blog through a raw-food friend and after a few months of browsing her posts, I decided to try one of the recipes. From the first bite I was HOOKED. Why I love her recipes: 1. I love that they are healthy. I had blood sugar issues and rarely have sweets. If I do, my blood sugar and weight jumps easily. However, eliminating sweets entirely has been hard. Having said that, the sugars in these desserts don’t seem to be a problem for me. My blood sugar will spike after I eat, but not as high and quickly will come back down. And the desserts taste just as sweet as a traditional dessert (sometimes sweeter). How is this possible?! Because they are natural sugars maybe?? There’s no processed food in the recipes. No dairy. So nice! 2. There’s no baking! I LOVE this. I can make 3 recipes in the time it would take me to make one traditional dessert. No matter what dessert I try, it takes me 20 minutes. 3. I find it easy to substitute things. If I’m low on maple syrup, easy. I can use sugar or honey (not vegan, I know) or coconut nectar. The desserts taste the same and all have the same basic components. 3. There’s no cleaning pans because there’s no baking. Cleaning up usually involves only my food processor (which can be put in the dishwasher)

and putting back ingredients. NICE!! Now, if you've ever baked, you know cleaning up alone can take 20-30 minutes. And it's usually when I'm cleaning pans that I think, "Wow this is a ton of work!"⁴. I love that she uses a lot of the same core ingredients. Coconut milk, dates, nuts, cocoa, coconut oil. I stock those in large supply - they all have a long shelf life - and you will find you have almost all the ingredients you need for most of the recipes.⁵ The desserts are SOOO good. I haven't found one that I haven't loved. My husband and I will often say, "Wow, if this was served at a restaurant, it would be our favorite restaurant EVER!" I have honestly never had food that tastes this good. I think it's due to the richness of the whole foods used in each dessert. Making a crust out of cashews, maple syrup and cocoa. Look out. I can't believe how good it tastes. I was shocked at the flavors. But in the beginning I was skeptical. Ground up pecans for a crust taste NOTHING like whole pecans (I don't really care for whole pecans). The recipes are so shockingly good, I had to make a dessert just to bring to work for our office of 60 people. They were shocked when I told them what was in the dessert and how good it tasted. It was gone in an hour with weekly requests for more. My absolute favorite recipe is the very first one - Cashew Coffee Vanilla Creme with Cinnamon Chocolate Crust. If you're short on time, leave off the coffee glaze and it is still to die for! I have this recipe down pat. I can make it in 10 minutes. I will often make triple batches of the crust and freeze it for future use (many recipes require a crust so I will experiment with swapping out recipes crusts just for fun and convenience). This is the dessert I brought to work. Honestly, it is the best dessert I ever made in my life (and I am always making desserts for parties, neighbors and the office). It puts a boxed brownie mix to shame. I don't think I'll ever make a traditional box dessert again. Why would you?! Excellent job, Emily! I am a huge fan!

I received my cookbook last week and have made three recipes: Avacado Pudding, Rawsome cookies and Chia pudding. Let me just say that all were AMAZING! Seriously, if you are considering this book...stop considering...and just purchase it. I've been looking for a recipe book of raw vegan desserts that I can share with family members who are not vegan. This is it! I can't wait to try more recipes.

If you love raw baking, this is a fantastic guide. It's beautifully composed, diverse, and the photos are gorgeous. The recipes are delicious and I still use this book regularly after two years of owning it. Granted, I'm vegan and not a fan of sugar and overtly sweet food to begin with, so the recipes in this book are perfect for me. The desserts are rich and nutrient dense, and although sometimes I choose to substitute ingredients or alter her recipes, his book has never let me down. More so than

her recipes themselves, this book gives great knowledge of raw baking in general, and will get your juices flowing to make your own creations.

I got this book because I have been following the authors blog for a long time and making her online recipes. Every single one has come out PERFECT AND DELICIOUS!! And same with this book.....she makes eating healthy taste like being sooooo bad!! Being gluten free I have gone through lots of bad recipes.....you will not believe that eating gluten free, vegan and raw could taste so damn good! I've bought so many of this book as gifts as well and have gotten nothing but great feedback. Every recipe is ridiculously quick and so yummy!

I could not believe how delicious these recipes were (we've only made two) but really, my children are discussing which cakes they want for their birthday after making two of these cakes to celebrate one son's birthday. Another reviewer mentioned this, but I will say that eating dessert with flour and sugar gives me really foggy head, however these cakes made me feel happy and energetic. We will definitely be getting more desserts from here as a healthy alternative.

I've only made a couple recipes so far. They were pretty simple to make and it seems like most of the recipes use similar ingredients so you don't need to buy tons of stuff to make a few different desserts.
