## Customer Reviews

Betty Auth is on the Board of Directors of the Society of Craft Designers. She has published several books and articles on various crafting areas.

I found this book to be very interesting. It had techniques I was already familiar with (creating and embossed stamp), but it also had some techniques like origami photo corners which I thought was so cool to use for my scrapbook on my trip to China. I think it is useful for beginners as they search for various ideas, it is an inspirational book that will help with basic techniques with stamps and their versatile uses. I only gave it three stars because it did not wow me the way other books on scrapbooking

techniques have and the directions are a little vague in some instances.
