Diffraction Optics: Design, Fabrication, And Test (SPIE Tutorial Texts In Optical Engineering Vol. TT62)

Synopsis

This book provides the reader with the broad range of materials that were discussed in a series of short courses presented at Georgia Tech on the design, fabrication, and testing of diffractive optical elements (DOEs). Although there are not long derivations or detailed methods for specific engineering calculations, the reader should be familiar and comfortable with basic computational techniques. This text is not a "cookbook" for producing DOEs, but it should provide readers with sufficient information to assess whether this technology would benefit their work, and to understand the requirements for using the concepts and techniques presented by the authors.

Contents - Preface - Introduction - Scalar Diffraction Theory - Electromagnetic Analysis of Diffractive Optical Elements - Diffractive Lens Design - Design of Diffraction Gratings - Making a DOE -

Photolithographic Fabrication of Diffractive Optical Elements - Survey of Fabrication Techniques for Diffractive Optical Elements - Testing Diffractive Optical Elements - Application of Diffractive Optics to Lens Design - Additional Applications of Diffractive Optical Elements - Index

Book Information

Series: Spie Press Monograph

Paperback: 260 pages

Publisher: SPIE Publications (December 29, 2003)

Language: English

ISBN-10: 0819451711

ISBN-13: 978-0819451712

Product Dimensions: 0.8 x 7.2 x 10 inches

Shipping Weight: 1.1 pounds (View shipping rates and policies)

Average Customer Review: 5.0 out of 5 stars 1 customer review

Best Sellers Rank: #675,269 in Books (See Top 100 in Books) #39 in [Books > Engineering & Transportation > Engineering > Electrical & Electronics > Electronics > Optoelectronics](#) #134 in [Books > Textbooks > Engineering > Electrical & Electronic Engineering](#) #236 in [Books > Science & Math > Physics > Optics](#)

Customer Reviews

This is an excellent book for anyone interested in designing and manufacturing diffractive optics.
