Thomas Edison And His Bright Idea (Penguin Young Readers, Level 3)

Synopsis

This nonfiction reader shines a light on Thomas Edison and his greatest invention—the lightbulb! As a curious child who was always asking questions, it's no wonder Thomas Edison grew up to become a famous, prolific inventor. This easy-to-read nonfiction story follows Edison from his time in school to his career as a full-time inventor. While it focuses on his groundbreaking creation of the lightbulb, this illuminating account also details other important innovations of his, like the phonograph and the microphone. Edison's discoveries will fascinate and inspire all curious young minds!

Age Range: 6 - 8 years

Grade Level: 1 - 3

Customer Reviews

Patricia Brennan Demuth has written several books for children, including *Way Down Deep*, *Gorillas*, *Snakes*, *Johnny Appleseed*, *Mars*, *Achoo! All about Colds*, and *Max, the Bad-Talking Parrot*. Jez Tuya is a New Zealand-based freelance illustrator, specializing in character design and children's illustration. While he creates his illustrations digitally they are rich in texture, detail and atmosphere which gives them a hand-rendered quality.

I purchased this book for my second graders for book reports. It has cute pictures and the right amount of text for book reports. I work for a private school so our children are excellent readers. Public schools may want this book for 2nd and 3rd grades. I'd say it is well done. The quality of the paperback book is good.

I love Demuth's writing. Very interesting information.
