Pictures aren't really pretty, it's something more for children than for adults. Cheap paper used too. Nothing in it that I want!

I own a copy of each of Jason Hamilton's great coloring books and enjoy them all. I must admit that my favorites are his coloring books with cats. This new book is the third of his which feature cats and this time with knitting! I taught myself to knit as an adult and my cats were part of that experience (literally and figuratively with kitty fur and knitting little sweaters that they refused to appreciate though they loved the knitted catnip balls that I made.) Many years later and now that my kitties have passed, this coloring book helps me to remember them and their cute antics. I really appreciate that Mr. Hamilton provides two of each of the designs " one in full page size and one in 4 x 6 inch (two to a page and perfect for use on cards.) The designs are fun and funny with cute kitties getting into the knitting basket. Simply adorable. The designs are detailed but not overly so. There is still plenty of blank space in which to use shading, add fur, or even your own design elements to make your project your own. I really appreciate that Mr. Hamilton's full size designs do not contain tiny spots to color though when you move to the 4 x 6 inch size, by necessity, the designs become intricate and have small coloring spaces. This is what I have found while coloring in this book and testing it with my coloring medium. 48 Knitting with cat/kitten designs " 24 unique designs x 2 sizes Printed on one side of the page Paper is white, thin, slightly rough and non-perforated (typical CreateSpace paper) Glue Bound Designs have border framing lines for a natural stopping place. There is plenty of room to remove designs from book if you choose to do so. Alcohol and water based markers bleed through this paper. Gel pens and India ink pens left shadows on the back of the page. India ink pens can leak through if used heavily or with multiple coats. Colored pencils worked well with the paper. I was able to get good color, layer, and blend well with both wax and oil based pencils. Hard lead pencils can leave discernible dents on the back of the page. I highly suggest a heavyweight blotter page be used at all times. I use card stock or two

sheets of heavyweight paper. This will keep ink and marring dents from damaging the pages below.

This is the third coloring book I have that's drawn by Jason Hamilton, and it doesn't disappoint. This is his most-detailed book yet. There are 24 images of cats with knitting/yarn projects. Some images have one cat, others have several cats, and a couple even have humans in the scene. The author knows how to draw cats--the expressions and the cats are drawn well and realistically. The pages are printed single sided. A neat feature is that the images are repeated in the back of the book at a reduced size, two per page, for framing or to have an extra copy. (His other books have this too, and it's nice that he continued this.) A small quibble I have is that I wish the paper were a bit thicker. I used Prismacolor pencils, blended with Goo Gone, and it blend through the back of the page. A solution is to use a piece of cardstock behind the page to prevent bleed through. Overall, I'm pleased with this book and look forward to coloring the images. What's not to like about cats and knitting?

This is my 3rd Jason Hamilton coloring book featuring cats. The details in this newest coloring book are very realistic, making them a joy to color. Not too many things are cuter than the antics of cats when yarn is involved. This coloring book will not disappoint.

Knitting, Kittens & Cats adult coloring book is the nicest book I have ever purchased. I have been coloring for over two years and I have well over 100 books but this is a beautiful book and the cats and patterns are stunning! Thank you so much for the challenge!!

Knitting, Kittens & Cats by artist, Jason Hamilton Review by: Deb

Rucinski Dimensions: 8.5 x 11 inches. Binding: Glue bound on left Perforation: Non-perforated Paper weight: 60 #24 single sided, illustrations (Printed in both, full page and 4 x 6 inch size) When it comes to cats and yarn, Jason has nailed it. He has these illustrations so true to form with how our beloved fur babies behave. When scanning through this book, I had to smile, as so many times I have seen these same playful pictures among my own cats when I have my yarn out. I have 4 of his 6 books, and love every one of them. I really enjoy his style. The book has a beautiful cover, in pleasing colors. Back cover has 6 smaller sample illustrations of some of those you see within. The book begins with the copyright page that includes a link to where you can find more of his work. There is also a colorist belong to page that can be colored. Next is a page where Jason tells an interesting story about how this book as come to be. I love reading these. It gives me more insight to the life of the artist. At the back of the book are some smaller sample illustrations

that you can color from some of his other books, along with a single blank page that you can use as a blotter page or to test your medium on. The illustrations are all full page with a 1/2 inch, white space border surrounding them. This allows for easy removal for framing, as well as to copy without losing any part of the image. They are highly detailed with a nice balance of open spaces. For those with vision or dexterity issues, the only difficulty I find, will depend on how you choose to color the yarn. Jason has spent a lot of time with his attention to detail in drawing each little stitch and characteristic of the yarn. If you choose to color the yarn as a whole, you will not have any difficulty. If you choose to highlight and shade it, this will take a lot of time. Image quality is great. The printing is crisp and clean. There are no fuzzy or pixelated lines. Paper weight is 60#, which is about standard for adult coloring books. You can use most medium on this. If you use markers, you will need to use a couple blotter pages behind your work, to prevent bleed through damage to the next illustration. If using watercolors, I would recommend copying to heavier weight paper, such as mixed media paper, watercolor paper or 110# weight card stock, that will hold up to the water application much better. This book is good for all ages and skill levels.
