# Protector (Night War Saga Book 1)

## Synopsis

Love. Honor. Protect. As an Environmental Studies major, Allie knows the planet is in trouble—a series of natural disasters recently rocked the northern hemisphere, and species across the globe are going extinct. What Allie doesn't know is that her world's decline is a result of an ancient battle called the Night War—the Norse goddess Nott's crusade to control the weakest of the light realms. And Allie most definitely doesn't know that her existence is the only thing stopping Nott from dragging the earth into total darkness. When four gorgeous guys show up claiming to be Allie's Asgardian protectors, she thinks they're delusional. And when they order her to hunt down the pieces of an immortal weapon, she's convinced they're insane. But when Allie's attacked, the guys' crazy stories of demigods and dark elves begin coming together. And Allie's not sure what scares her more—losing her life to the Goddess of Night . . . or losing her heart to one of her protectors. Let the hunt begin.

## Customer Reviews

First I want to tell people that this is not a RH even though it may sound like one. That being said it

is still a very good book and it will draw you in right from the beginning. Suddenly finding out that she is a damn I got first I want to tell people that this is not a RH even though it may sound like one. That being said it is still a very good book and it will draw you in right from the beginning. Suddenly finding out that she is a Demi Goddess and must save the world is a big shock to anyone but she has a nice set of guys to help her along

Awesome read with great Norse Mythology background! I love reading books by S.T. Bende to learn about Mythology and I tell all the research that is put into these books. Leia Stone added some great writing to this new series! I can't wait to see what adventures these two amazing authors come up with next. I want a Mack Pack!

Up until the girl starts talking about sleeping with some random dude and then talking about sleeping with a different dude it could be Norse. But to not understand 2.5 children shows ignorance for a culture and a people's way of life that has last tens of thousands of years. Not understanding that point mean neither author is anything more than a smuck. They should apologize to their readers for misleading them. It was interesting before that. It really deserved one star but it was mostly in English so more readers would be expecting less than a Fin or Swede's view of 2.5 and they are the most open minded.

A brand new series from the minds of Leia Stone and ST Bende is phenomenal!!! New characters set in a modern day Midgard with norse gods and hunky demigods!

A great start to a new series from a favorite author and her co-author. I can see S.T. Bendes classic signature writing throughout the story. From start to finish this story holds the reader spellbound. A serious page turn throughout. Easily the reader is able to paint a picture in their mind. Even with characters that would be difficult to see in one's mind, the reader is still able to picture it. This is a story you don't want to miss

S.T. Bende is one of the very few authors that can take them same setting in a story and make it completely new! Now add in Leia Stone and WOW! I LOVED this book. The plot was excellent, the pace never slowed and i never felt like I was reading the "Same Thing" again. I can't wait for the next addition. Well done!

I fall more in love with these authors with every new book they write. They have this amazing talent to tell a story with such amazing characters that just draws you in, and you are always left wanting more! Allie may just be my new favorite character. I loved her journey into discovering her purpose and her interactions with her four protectors was so entertaining. Loved it so much I read it twice! Anxiously awaiting the next installment. Buy this book, you won't be disappointed!

Add this book to your must read list right away! If you like feisty heroines, hot hunky Asguardian men and waffles then this is for you. Leia Stone and S.T. Bende have collaborated to write an amazing series and this is the first book. Definitely worth your time!
