Hamlet: John Gielgud's Classic 1948 Recording (Classic Drama)

Synopsis

This outstanding historical recording made in 1941 for radio is widely regarded as one of the finest Hamlet performances ever, and one of John Gielgud's greatest moments. Though he went on to record it for commercial release, nothing matched this recording in the BBC studios, made before the days of editing.

It's hard for any director to make HAMLET sound new, so Naxos has done the opposite: they've made it sound old. This is a remastered version of a 1948 performance with John Gielgud in the title role. Though the sound quality is better than you'd expect, some of the dramaturgy seems outdated now, and the actress playing Ophelia is noticeably weak. But Gielgud overpowers any shortcomings, demonstrating why he owned this role during his career and why all subsequent Hamlets try to measure up to him. In the music of his voice, all the play's famous soliloquies and witty exchanges that you've heard a dozen times before suddenly sound fresh. An ironic pleasure in a sixty-year-old recording. After reading the negative and only review of this CD, I decided to see how terrible this recorded performance was for myself. First of all, I was surprised at how clear the sound of the performance actually was, considering the date of the recording. Second, I've seen and heard numerous

performances of Shakespeare's Hamlet over the years, (including Mel Gibson, Nicol Williamson, Lawrence Oliver, Richard Burton, and Kenneth Branagh), most of which I have enjoyed, more or less, for different reasons. (I find it is a lot like listening to the many, great violinists who have recorded Beethoven's, one and only, Violin Concerto in D, Op. 61, i.e., some are good and some are great, for different reasons.) At the time of this recording, John Gielgud had played Hamlet over 500 times and this performance in 1948 came late for him to play the role, yet Gielgud was also at the height of his abilities as an actor. I found that beyond the various interpretation's of Hamlet's personality by others, no one can "Speak the speech, I pray you, ...trippingly on the tongue..." in the decisively commanding, poetic, and eloquent manner as John Gielgud. It is the beauty of Shakespeare's language that Gielgud offers here, and that I believe is worth the price of admission, (or in this case, the 3CDs). Of course, the cast is not perfect, but Andrew Cruickshank is the best Claudius, I've ever heard, and Hugh Griffith's monologue as the First Player is just marvelous. Also, memorable is Marian Spencer as Gertrude, Baliol Holloway as Polonius, Sebastian Shaw as Horatio and Hugh Burden as Laertes. If that's not enough to wet your palette, get this CD set for no other reason than it is a historic performance of a John Gielgud with an enchanted voice, like none other.

Hamlet is a play that has been subject to numerous interpretations, many of them convincing. However, Gielgud's is my favorite. The beauty of his elocution and his superb dramatic pacing is unsurpassed. True, this is an older style of Shakespeare than is currently practiced, but no matter. The beauty and power of this performance is irresistible.

Gielgud is absolutely brilliant. One has to remind oneself that he knew Hamlet inside and out, having done the play in a number of productions over the years, not just once or two time experienced. probably the most fleshed out version of Hamlet ever done by an actor.

Play: NA. It is a classic. Radio Drama: I chose this version since all the reviews said that Gieglud's version of Hamlet was the best. Since I have not seen or heard another, I can not judge. However, it was very good.

very good. thanks

An essential in the history of Shakesporean performance!!

Sir John Gielgud was one of the premier Shakespearean actors of the 20th Century. He was well known for his Hamlet, having played it approximately 500 times by the time of this broadcast. Another reviewer brands him "simply not Hamlet" and describes his performance as "weak and lacking in intelligence." Inexplicable criticisms and wrong. "Simply not Hamlet" defies the judgment of Gielgud's contemporaries, who held his Hamlet as the standard by which to measure all others. The erring reviewer can only mean not conforming to his individual pre-conception of the role. No useful information is conveyed by such criticism. "Weak?" Is Gielgud's Hamlet recessive, inarticulate, unimportant, ineffective, uninvolving, lacking in reserves? Heck no. Therefore it is not weak. "Lacking in intelligence" is vague and unprovable, as no one makes more of Shakespeare's language than Gielgud. We might not make the same choices today, but none of his choices are unintelligent, and some of them remain unmatched. So, what do we really have here, all preconceptions to one side? A poetic performance that, top-to-bottom, concentrates on the language in a florid, large-than-life manner, almost operatic, that is no longer current. The style is not invalid, just lost. And being broadcast live, without editing, the energy level of the whole cast is that much higher. Any fan of Shakespeare on audio should have this performance as a centerpiece of his or her collection. Required listening.

This is from the 1948 broadcast and the sound is OK. I must say that, however much I like John Gielgud as an actor, he simply is not Hamlet. His reading is much too weak, really lacking intelligence. In addition, Ceilia Johnson as Ophelia is a disaster. She has a voice which is whiny and annoying and absolutely middle-aged; unbelievable as well as distracting as Ophelia. Andrew Cruikshank as Claudius is fine, although his wonderful, deep voice makes Hamlet shrink in his presence and makes him sound a little too good, which is not Claudius. Finally, Hugh Griffith is excellent, but one wishes one could have seen him! Might have saved the day!
