Nick Krautter is a Realtor in Portland, Oregon, where he leads a team and frequently serves as a real estate expert for the media. Krautter is an avid golfer, writer, reader, and talker who enjoys all the food, drink, and adventures that can be found in the great Northwest.

There is no roadmap for agents who are looking at an exit strategy. This is a great guide for retiring agents and how to create passive income.

This book is a great read for Realtors. Nick gives a brilliant way for a Realtor to grow their business and the perfect approach for a retiring Real Estate agent to continue to benefit from years of hard work and success. The book also includes great insight into systems and tools that any Realtor can benefit from learning more about.

Just what was expected. Thanks.

This book is transformative in the way that it allows real estate agents to see their business. No longer is it just a sales profession business and the day you stop selling is the day you stop earning. Instead, an agent can see their database and brand as a legitimate asset that can pay them into the retirement years or on into their next venture. Similarly, for those agents wanting to grow fast, this book has changed my paradigm on how one can grow a business quickly. Creating a blueprint for integrating the M&A concept into an agent's business is brilliant and timely.

This book contains some SUPER simple strategies that can quickly give anyone's real estate business a quantum leap forward. I have seen this work first hand for Nick, and there is no reason

why it wouldn't work for anyone else too. Very clear tactical advice, easy to read and should be simple to execute. Like real estate itself, it is simple ... but not easy. For a motivated young agent with a serviceable client follow up system, the contents of this book will be like adding gas to your fire. It is a win-win-win all the way. super smart ideas here.

This is truly the only prospecting strategy I have never seen discussed in another real estate book. Further, I thought the concept was a unicorn -- that it didn't exist. The Golden Handoff has me revisiting my business plan in perfect timing for 2016. Also, the book is very well organized, intelligent, and clear. Love it.

Great read. Simple straight forward and one of the few times a new concept has been introduced into the real estate sea of business strategy. Great ideas as a growing business; great path for a retiring agent. It strengthened my resolve to continue focusing on the number 1 priority; service. Karim

Nick Krautter has provided a tool for Realtors that will enable us to improve our lives from the first day we read his book, on! Thank you Nick. This is what I have been struggling to figure out on my own for the past decade, and now here it is in a clearly spelled out design. What a delightful read!
