Customer Reviews

I bought this book to start reading music as an adult. My reasoning was that I was new to music and it should be very well explained and very simple. I finished vol. 1 in no time, and it gave me a good base to start reading music. From there I went on to buy Mel Bay and Sal Salvador guitar methods, but I still bought the second volume of Suzuki. It is short, and thus not discouraging, because you see the end coming. The selections are very good for classical music and even though the jump from volume 1 to volume 2 is a little too high, with a teacher it will improve your playing and your reading. I find this method very good. Specially for children.
