Securities Law (Concepts And Insights)

Synopsis

This concise text provides a basic introduction to securities law. One object of the book is to help struggling students get on track; another is to assist in review and exam preparation. The authors define a security, explain how securities are registered under the Securities Act and describe the applicable exemptions. Many other subjects are addressed, including Exchange Act reporting, proxy solicitations and tender offers, insider trading, and international aspects of securities law. The book is completely up-to-date, incorporating all relevant changes from the JOBS and STOCK Acts of 2012.

Book Information

Series: Concepts and Insights

Paperback: 256 pages

Publisher: Foundation Press; 5 edition (April 1, 2014)

Language: English

ISBN-10: 1609304691

Best Sellers Rank: #465,326 in Books (See Top 100 in Books) #37 in [Books > Law > Business > Securities](#) #4882 in [Books > Textbooks > Law](#)

Customer Reviews

A good introduction and review of Securities Regulation. The prose is a little rough in places, making a difficult subject harder to understand than necessary. The tables are really helpful though.

This book was the exact thickness the description said. Now my couch doesn't wobble. Great purchase.

The content is substantially similar to the textbook authored by the same people. Totally a waste to buy this one.

A simplified version of the textbook. Get the E&E instead.
