Black Reconstruction In America (The Oxford W. E. B. Du Bois): An Essay Toward A History Of The Part Which Black Folk Played In The Attempt To Reconstruct Democracy In America, 1860-1880

Synopsis

W. E. B. Du Bois was a public intellectual, sociologist, and activist on behalf of the African American community. He profoundly shaped black political culture in the United States through his founding role in the NAACP, as well as internationally through the Pan-African movement. Du Bois's sociological and historical research on African-American communities and culture broke ground in many areas, including the history of the post-Civil War Reconstruction period. Du Bois was also a prolific author of novels, autobiographical accounts, innumerable editorials and journalistic pieces, and several works of history. *Black Reconstruction in America* tells and interprets the story of the twenty years of Reconstruction from the point of view of newly liberated African Americans. Though lambasted by critics at the time of its publication in 1935, *Black Reconstruction* has only grown in historical and literary importance. In the 1960s it joined the canon of the most influential revisionist historical works. Its greatest achievement is weaving a credible, lyrical historical narrative of the hostile and politically fraught years of 1860-1880 with a powerful critical analysis of the harmful effects of democracy, including Jim Crow laws and other injustices. With a series introduction by editor Henry Louis Gates, Jr., and an introduction by David Levering Lewis, this edition is essential for anyone interested in African American history.

I had never read DuBois and I wonder why this book isn't required reading in any class about American history. I think he's considered "Black History" and while that's certainly true, the white people were there as well. We all need to know what happened and why.

An amazing combination of poetry and analytical brilliance. WEB DuBois set the standard for challenging the racist redeemer interpretation of Reconstruction.

Classic work on the history of the Reconstruction Era (1865 - 1876). A collection of 17 essays written by perhaps the greatest black mind, Dr. W. E. B. Dubois. A more true history of what really happened in the United States in the aftermath of the civil war and Lincoln's assassination.

I love this book because it gives you a breakdown and a better understanding to why certain issues exist

Perhaps Dr. Dubois' greatest work. The first scientific research to provide the basis for understanding the root of US slavery, race and class.

One of the best minds in social theory. His vast intellect and knowledge is immediately obvious when you pick up this book. An amazingly detailed and thoroughly-analyzed snapshot of U.S. history.

The title is misleading. This book narrates the history of white settler colonialism in North America, with particular reference to the enslavement of Africans within that colonial project. The enslavement of Africans didn't end in 1862 or 1865 -- it just changed form. We're still floundering around in his history.

An authoritative history of Reconstruction, published 60 years after the fact.
