I know what you must be thinking... "Another Twilight item to buy?!?" Well, at the final leg of Twilight I am trying not to buy so much because my collection is huge, but this is an amazing book. It's sort of feels like an encyclopedia! It includes surprises like cast set schedules, postcards showing scenes from each movie, Laminated Red Carpet Access Passes, Edward & Bella's wedding invitation, BD2 script pages and more! The best surprise is at the very end where they include a reprint of a cast signed Twilight poster and a reprint of a cast signed (from both parts 1&2) Breaking Dawn poster. Both great to frame! I hesitated buying this at first, but I have to admit I am so glad I did and it is now one of my favorite items in my Twilight Collection. I am definitely going to get this

autographed if I get a chance. If you are a true Twi-hard then you definitely need this book!! I only gave this book 4 stars, because the book I received was defective. The binding in two sections of the book were loose, and I returned mine for a replacement because I was afraid the binding would come apart a lot sooner than later. If not for the binding I would definitely have given it 5 stars.

LOVING IT!!! I'll give it another "AMAZING!" A definite must have for every collector. Two Autographed posters in the back of the book, pictures you can remove, the wedding invitation...just wow!

What a great book for someone who has been read all the books and has seen all of the movies. I love all of the little things that they have added to make it special. totally worth it.

This book is a treasure and well-worth the price. It's not just that the photographs and text are both stimulating and stunning, but the inclusion of so many included artifacts from the making of the films. Included are pages of the script, an invitation to Bella and Edward's wedding, wolfpack tattoo stickers, removable postcard-size framable movie prints, etc. This book touches on everything from the design of Bella's wedding dress to the perfecting of the Volturi's signature neckchains. It has interviews and reminiscences from every single actor, plus key members of the behind-the-scenes teams including the scriptwriters, camera crews, etc. There's just so much information to digest that you'll never get through the whole thing in one sitting, even if you don't get distracted by all the beautiful, full-color illustrations, photos, and other memorabilia included between the pages. If you're a Twihard looking for something to give you a fix now that the final movie has been released, this is the book for you.

it is beautiful. i love reading and looking at the pictures. I am very glad i bought this. And it came fairly fast. i ordered it on a Tuesday and got it by the following Tuesday. The reason i didnt give it 5 is because when i ordered mine i had ordered from the "New for..." section, so it was being sold from someone rather than a company, so when i got my package the corners, were somewhat messed up and it almost looked like the pages that are suppose to be "glued" together (inside of spine) were coming off, but I think thats mainly because the pages are manufactured to be tied with string (not tied right a the top where visible). But i can assure that no pages have actually gotten loose. I also noticed an ink stain that was located at the top of the book pages when you sit it up. Its a small sharpie dot. I really considered just returning for a new one, but i already felt attached to the book

and just decided to keep it. No pictures or the little extras inside were ruined so it really wasn't all that big of a deal. There is a lot to read so you won't get bored of it easily. It has a little of everything. From the crew call to the movies, insight from the director, producers, actors and even Stephenie, the music playlist used in the films, set and costume design as well as copies of the scripts. and much much more!

For just a tiny bit over \$20 bucks..this book is totally worth it! I just received it today & was completely blown away! It is an amazing book filled with so much insight on the movies! I'd say it's a definite MUST for a Twilight fan. It will not disappoint!!! It's practically the same thing as Harry Potter Film Wizardry, just Twilight. It has awesome pullouts of casting calls & pages from various movie scripts. It also has reproductions of various Movie screening tickets & passes....not that interesting. The best bit for me was the decal stickers of the Quileute & Cullen crests. There are also two medium sized posters that have the casts autographs (reprint obviously). The only CON of this book, I'd say, are the random postcard sized picture stills from the movies. To me, they ruin the book; It's not like they have their own folder. They're just stuck with some sort of tape/glue material & posted randomly through out the pages. Trying to take them off would totally ruin the beautiful pages.Regardless, I think this book is fantastic & any Twilight fan would be thrilled to have it. It is a wonderful keepsake & collector's item. I'd say it's WORTH the buy!!!

This is a beautiful book with lots of trinkets and mementos from the movies. If you're a Twi-Hard, this book is the ultimate prize.

If you are a fan of the Twilight saga, as I am, you will greatly enjoy this book. It contains interviews from the cast and inside information on how they created some of the complicated scenes. The book also has a lot of photos and envelopes stuck to a page that contain various items such as copies of invitations to premiers and cast parties, copies of daily shooting schedules, and a copy of the wedding invitation to Bella and Edward's wedding. It's a really cool book containing a lot of unknown information about these great movies. It's a book I will always keep along with all the movies. I highly recommend this book to serious Twilight saga fans.
