This baby book is the absolute sweetest. It has a definite vintage feel to it and I love it's simple format and clean page look. It is very simple to answer the questions and leaves plenty of room. It also seems to cover everything I needed to mention about my baby.

It's a cute baby book, but I wish it left more space for 'Baby's Birthday.' What happened that day? how the baby was born, who came to the hospital...Seems like the most important part and there is just room for the basics, when? where? baby's weight? Okay book, but like I said, I would prefer to tell a bit of a story during that timeframe.

I am having a baby, and I wanted a great baby book to keep everything in! Not only can you track what happens during pregnancy, but you have a place to put your baby's first months to a year photos! :) I am so excited. I can not wait to capture my baby's first year!

This book has darling illustrations. It is detailed, but not obsessively so. Just enough milestones and fill-in spots for me to keep up with. I wish it had a place for cards. I stuck my baby's most charming cards into the pocket in the back; they don't fit well.

The illustrations are super cute in this book and I just like the overall vintage feel of it. It's gender neutral, as well. It is a little smaller than I was expecting, so letter size pages have to be folded to fit inside. No other complaints, though!

This is a perfect baby book. Has places for pictures, a family tree, a pull out height chart, and adorable illustrations. All of the milestones can be remembered. Very sturdy make and thick pages.

I love the cute vintage look of this book. It is just a tad on the small side for holding the memorabilia that I was looking to include. Ultimately went with another book for that reason only.

The book is a little bit smaller than what I thought it would be. But other than that it is adorable and has lots of stuff to fill out about your newborn. I love it :)
