Customer Reviews

Purchased this coloring book as a gift for my manager's One Year work anniversary. She is always making puns, so this fit her well. The book arrived packaged tight and well. The pages in perfect condition. You can read and make out each saying and design on each page. I look forward to purchasing part 2 of this collection when funds become available.

Good product, I am very happy with the quality of the product. Good buying experience. Would

definitely shop with them again.

I've now bought this coloring book as a gift twice. Both people just absolutely LOVED it. Only one picture on a page is very nice so if you use markers you don't ruin another coloring page. The punny pictures and jokes are perfect and hilarious. This was a great gift for a friend recovering in the hospital and for the college student in my office that loves to share puns. I would 100% recommend this to anyone.

The lettering on the top of the page is cut off on several pages. I was very dissatisfied. I was going to give this as a gift but now I can't because of the poor quality

Good

Truly is very punny

This book made me laugh and I colored it and mailed some of them to friends for a laugh. Some of the puns make no sense, but I totally don't regret buying it.

Coloring books for adults have become quite the rage and I have to admit, I got drawn into it. I have always enjoyed coloring when I was younger, and people said it was relaxing as an adult. I figured that I needed to try it; stress at times is crazy. I have to admit, I got a kick out of this book. IT covers the gamut of motivation, puns, and swearing all in one book. Hubby and I were cracking up when it came, and we went through and read all of the pages. I was really upset about some things that were going on, and hubby says, you need to relax and calm down, get out that coloring book you got. Well, I did, and have to admit, after coloring, I could tell that my frustrations and tensions, just melted away. Guess, I need to keep a stack on hand for those days. The pages are pretty thick, the colors don't bleed through. It is not appropriate for young children, but not overly offensive either. You definitely need to have a sense of humor with this book. Disclaimer: I received this for a reduced price in exchange for an honest and unbiased review.
