The Organic Heart: A Gluten-Free, Dairy-Free, Clean Food Cookbook

Synopsis

At the age of 26, Breeana's husband, Jason, was suddenly and unexpectedly diagnosed with severe heart failure. Following his diagnosis, she set out to regain his health which she succeeded in doing by completely revamping their diets. In these pages is the story of how Breanna cured her husband, and seventy-five of the clean and delicious, gluten and dairy-free recipes that helped her do so. Recipes include: Sweet Potato Breakfast Sliders BBQ Chicken Zucchini Noodle Bowl Mango-Mint Salsa with Cucumber Chips Honey Cornbread with Jalapenos Roasted Red Pepper and Garlic Hummus Dip Shrimp and Kale Fettucine in a Cauliflower Cream Sauce Sloppy Joe Stuffed Baked Potatoes The first step was to throw out everything in the refrigerator, go grocery shopping, and dedicate one hundred percent of her time, energy, and passion. She wanted to create healthy, nutrient-filled recipes to heal her husband's heart, but would also taste gourmet and savory. She created an Instagram account to document their journey and share with others who might be struggling with their own healthy issues it was then Breanna realized she could turn what some would consider a tragedy into something truly positive.

A must-read for both professional chefs and amateurs." — Chef Andrew Gruel, founder and executive chef of Slapfish Restaurant, Food Network judge a take-out kind of girl, but Breeana's Instagram literally turned me into someone who wanted to cook. Eating organic seems like it might

Oh and they look beautiful, too.â • â •Erin Foster, actress, comedian, producer"The Organic Heart recipes make healthy eating fun! My wife and I ordered four copies of this fantastic book and we are ordering more for our friends who can benefit from improved health and more energy. The amazing thing about this book is Breeana Pooler found her passion along with saving her husband's life through her food plans. Her husband, Jason, improved his heart performance from 9% to 35% (a relative 388% improvement) in three short months, and avoided a heart transplant. The cardiologists were amazed at Jason's unbelievable recovery using food as a medicine..My wife suffers from MS and hopes to also improve her condition by following the plan because she sees a correlation between Breeana's recipes and the ability to repair her body just as Jason did..Further, the book is filled with vivid pictures of Breeana's prepared dishes along with "crisp" and thorough descriptions of easy-to-follow instructions.If there were a grade higher than an "A", I would give it to Breeana - Awesome Job!

I have been following this author on social media since day 1. Her story is inspiring and the meals look incredible!! I can't wait to receive my cookbook and to begin my own journey. Thank you Breeana!
