RISE Of The MACHINES: Secret Weapons, Secret Wars, & Secret Agendas

Synopsis

Do secret scalar weapons underpin a modern day Cold War? Does a 'breakaway' civilization rule our world? Are the secret Middle Eastern drone wars pivotal to Military/ Industrial profit - or are they a diversion for something more sinister? Rise of the Machines takes you deep into the world of secret science and hidden weapons platforms. From the Cold War until present, a secret underworld of deception, technology suppression, and weaponization has led to a rise of machines that will shock you to the core. Killer drones circle the Middle East striking fear into every heart, but what power stands behind them, allowing them total freedom? If scalar weapons exist in veiled secrecy, what is their role in the War on Terror? What was the level of secret Russian/ US complicity during the Cold War? Where does that level sit now? Has anti-gravity propulsion been concealed by a breakaway faction of the US Intelligence machine, and if so, is there a secret space war in our own solar system? In Rise of the Machines, research author Travis Stone shows that all of these possibilities are not only realistic, but frightening close to humanity's ultimate deception. E-BOOK VERSION ALSO CONTAINS: A BLURRED REALITY: ISIS, POWER, TERROR, & DECEPTION

Customer Reviews

Nice written, may be CIA can probe case against the author but written very true. Everybody knows who is the culprit but can't do anything till people get real knowledge.
